Information Science: Information Science and the Connected World Selmin Nurcan, Andreas L. Opdahl, Haralambos Mouratidis, Aggeliki Tsohou, 2023-05-22 This book constitutes the proceedings of the 17th International Conference on Research Challenges in Information Sciences RCIS 2023 which took place in Corfu Greece during May 23-26 2023. It focused on the special theme Information Science and the Connected World. The scope of RCIS is summarized by the thematic areas of information systems and their engineering, user-oriented approaches, data and information management, business process management, domain-specific information systems engineering, data science, information infrastructures, and reflective research and practice. The 28 full papers presented in this volume were carefully reviewed and selected from a total of 87 submissions. The book also includes 15 Forum papers and 6 Doctoral Consortium papers. The contributions were organized in topical sections named Requirements, conceptual modeling and ontologies, machine learning and analytics, conceptual modeling and semantic networks, business process design and computing in the continuum, requirements and evaluation, monitoring and recommending, business process analysis and improvement, user interface and experience, forum papers, doctoral consortium papers. Two-page abstracts of the tutorials can be found in the back matter of the volume. *Cognition and Personal Structure* James Mancuso, Mildred Shaw, 1988-01-20 The 12 chapters in this anthology describe ten different computer programs designed to help quantify the knowledge systems people use as they assimilate different types of information. The programs range from one used to analyze the knowledge structures of experts in almost any domain to one which assesses knowledge of the self. The work described is clearly state of the art, although the focus of the chapters is on the programs in a particular content domain. Consequently, the book provides a valuable source of information about a particular category of research tool. *Choice* Cognition and Personal Structure describes in detail methods of collection and analysis to be used in the understanding of an individual's belief system or cognitive structures. The contents are diverse, clear, practical, and based on current methods. The contributors systematically discuss representative data collection methods and analysis procedures that can be used to explore the relationship between personal systems, cognition, and actions. In addition, each writer offers readers access to the computer programs that can be used to follow his or her methods for exploring cognitive structures. Most of the descriptions in the book are based on role repertory analysis methodology.

Expert Systems in Engineering Applications S. G. Tzafestas, 1993-10-26 Expert system technology is receiving increasing popularity and acceptance in the engineering community. This is due to the fact that there actually exists a close match between the capabilities of the current generation expert systems and the requirements of engineering practice. Prepared by a distinguished team of experts, this book provides a balanced state of the art presentation of the design principles of engineering expert systems and a representative picture of their capabilities to assist efficiently the design, diagnosis, and operation of complex industrial plants. Among the application areas covered are the following: hardware synthesis, industrial plant layout design, fault diagnosis, process control, image analysis, computer communication, electric power systems.

intelligent control robotics and manufacturing systems The book is appropriate for the researcher and the professional The researcher can save considerable time in searching the scattered technical information on engineering expert systems The professional can have readily available a rich set of guidelines and techniques that are applicable to a wide class of engineering domains *Proceedings, the Second International Conference on Industrial & Engineering Applications of Artificial Intelligence & Expert Systems* ,1989 PC AI ,1995 AI Trends , **Social Media and Society** Regina Luttrell,Adrienne A.
