AI as Help and Hindrance in Education Duarte, Alexandre, Andrade, José Gabriel, Dias, Patricia, 2025-07-28 AI is rapidly transforming the educational landscape offering both challenges and opportunities On one hand AI enhances personalized learning experiences and streamlines administrative tasks On the other hand AI raises concerns around data privacy academic integrity and an over reliance on automated systems As educational institutions increasingly integrate AI into classrooms and curriculums it is essential to understand its dual role as a powerful tool and a potential obstacle AI as Help and Hindrance in Education explores the use of AI in learning platforms It comprehensively discusses both the opportunities and challenges to the integration of AI in education Covering topics such as bilingualism online course evaluations and virtual learning environments this book is an excellent resource for educators academic researchers students instructional designers school administrators and education technology professionals in both the public and private sectors

The Role of Generative AI in the Communication Classroom Elmoudden, Sanae, Wrench, Jason S., 2024-02-12 In an era marked by the rapid integration of Artificial Intelligence AI into our lives the discourse surrounding its implications has intensified The Role of Generative AI in the Communication Classroom is a pioneering book that delves into the multifaceted dimensions of AI specifically focusing on OpenAI's revolutionary Chat Generative Pre Trained Transformer Chat GPT and its profound influence on the landscape of communication education This book navigates the intersection of technology education and ethics shedding light on the imperative need for a collaborative approach to shape AI's evolution AI's potential to reshape industries and human roles is undeniable Rooted in the intricate workings of AI and its hallmark Chat GPT this book meticulously dissects the dynamic relationship between humans and machines The discourse extends beyond technology and into the realm of education asserting that the power to mold AI's trajectory cannot rest solely in the hands of developers While revealing AI's transformative potential in the communication classroom the book conscientiously explores ethical concerns and biases fostering a balanced approach to its integration This book is instrumental to the ongoing discourse on AI's role in education The call for ethical considerations inclusivity and regulation serves as a guiding compass for educators students developers and policymakers alike The book ensures a holistic perspective on AI's integration by addressing privacy citation voice ownership and overall digital ethics

Insights into AI and Language Teaching and Learning Yijen Wang, Antonie Alm, Gilbert Dizon, 2025-04-16 Overview Language educators often have varied levels of comfort and expertise with emerging technologies like Artificial Intelligence AI This creates a pedagogical gap that must be filled to ensure that educators can make informed choices about the technologies they integrate into their classrooms The primary aim of Insights into AI and Language Teaching is to function as a comprehensive training guide for language educators interested in incorporating AI technologies into their teaching practice for foreign second language education across a variety of language contexts not just English as a Foreign Language EFL but also for the teaching of other foreign languages

This book aims to act as a bridge guiding teachers from a basic understanding of AI to a level where they can confidently employ it as part of their teaching toolbox. As teachers have a long lasting impact on how students view learning, adopt new technologies and even how they perceive themselves, this book will therefore focus not only on technology but also on how teachers can be empowered to use AI in a way that enhances their influence and the positive impact they can have on their students.

Teaching as if Students Matter Jaye Zola, John Zola, 2024-01-01 Teaching as if Students Matter supports the goal of new teachers to create engaging classrooms where students want to learn. It provides concrete and specific methods for building relationships with all students, managing their behaviors in positive ways and planning for engaged and authentic instruction. Throughout the book emphasizes the critical role of culturally responsive teachers in creating inclusive curriculum and meaningful relationships to help all students learn and succeed. This book provides specific advice on how to build a classroom culture where discussion can flourish as well as ideas for working with colleagues and maintaining a healthy work life balance. As one reviewer wrote after reading this book: "I really believe I can do this."

Machine Learning and Artificial Intelligence Jon-Lark Kim, 2023-11-15 Machine learning (ML) and intelligent systems are now comprehensively applied for the solving of practical problems. Emerging techniques such as big data analysis, deep neural networks, AI and IoT have been adopted and integrated into the development and application of machine learning and intelligent systems and their wide application in industry, medicine, engineering, education and other mainstream domains have made them a part of everyday life. This book presents the proceedings of MLIS 2023, the 5th International Conference on Machine Learning and Intelligent Systems, held as a hybrid event from 17-20 November 2023 in Macau, China. This annual conference aims to provide a platform for a knowledge exchange of the most recent scientific and technological advances in the field of ML and intelligent systems and to strengthen links within the scientific community in related research areas. A total of 80 submissions were received for the conference, of which 20 papers were selected for presentation and publication in these proceedings following a rigorous peer review process. Papers were assessed on originality, scientific/practical significance, compelling logical reasoning and

language and the selected papers cover a wide range of topics and provide innovative and original ideas or results of general significance in the field of ML and intelligent systems Providing a current overview of developments in the fields of machine learning and intelligent systems the book will be of interest to all those working in this field **Building Literacy with**
