*Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates?* Huong Hoang Thien, 2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1.0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic

forced German companies to embrace new technology more quickly and adapt to remote work. However, on the other hand, it pointed out Germany's weaknesses in digital infrastructures and cybersecurity. Additionally, many German companies face a shortage of workers due to digital transformation. Another reason that causes workforce shortage is demographical change. Companies cannot operate their business correctly, increase revenue, or drive innovations to survive in a competitive market without suitable candidates. Furthermore, the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences. Therefore, companies must know them and their work preferences to fill the workforce shortage gap. Remote working as a sub trend of the mega trend New Work has become the new standard for workers, especially since the pandemic. However, there aren't any specific regulations regarding remote work in Germany yet. In general, remote work provides workers, e.g., more freedom and a better work-life balance. Nevertheless, remote work also has the downside, such as workers experiencing isolation and loneliness due to the lack of social contact with co-workers, less productivity outside of the office, etc. For companies, offering remote work gives them complete access to the talent pools, including freelancers as external workers, reducing costs due to fewer offices, being more attractive to job seekers. But on the other side, remote leadership has become a big challenge for leaders. Furthermore, companies have to deal more with cybersecurity. When everything's going remotely, companies have become an easier target of cyber attacks.

,2002 Tips and Tricks To Working Online Kristi Griffin, 2021-03-15 Working online or remotely has become a necessity for many this year. However, this is just the start of a larger trend. It is predicted that by 2027 the majority of the US workforce will be working remotely online. The office work lifestyle is familiar to most people: get dressed in your company clothes, commute to work, work in a room with a few other people, take scheduled breaks, et cetera. But remote workers at online jobs don't encounter most of those situations. They don't need to get dressed in company attire or commute to work. But it can be difficult for online workers to navigate working away from the office. Best practices are not as well defined because online work, at least in its current form, is still relatively new, so it can be difficult to know how you should act when working from home. There is no single formula for how to become an efficient online worker. Everyone will work at different times and have different tips on how to make the most of their time. Indeed, one of the major benefits of remote work is the flexibility it affords. Working from home means that you can adjust your schedule to suit your commitments and your timetable as it is in your hands now. However, this means that you need to learn what works best for you when managing your priorities and time, and everyone is slightly different. That said, there are a few common practices you can expect to use as a remote worker. In this guide, we've compiled the best practices for online remote workers, ranging from how to participate in meetings to how you can find an online job as a remote worker. If you're working from home or aspire to do so, this guide is for you.
