mechanical industrial and production engineering      Generations in the World of Work Corey Seemiller, Meghan Grace, 2024-12-30 Generations in the World of Work provides invaluable data informed insights into the intergenerational dynamics in today's workplaces. Generational experts and authors of Generation Z: A Century in the Making, Corey Seemiller and Meghan Grace, present the perceptions, motivations, and preferences of various generational cohorts and share how those shape individual behaviors, communication, and collaboration, as well as wider organizational structures and norms. They offer guidance for how to maximize productivity and relationships to navigate dynamics across generational cohorts. Generations in the World of Work offers employees, managers, and organizational leaders guidance for maximizing productivity, relationships, wellbeing, and engagement across generational differences in order to create thriving workplaces that value and leverage each person's strengths.

**Artificial Intelligence and Human Existence** Akanksha Srivastava, A.V. Senthil Kumar, Disha Maheshwari, Samrat Ray, 2025-12-22 Artificial Intelligence (AI) has become part and parcel of many aspects of our lives, impacting how we approach tasks and understand the world around us. This book recognizes the impact that Artificial Intelligence (AI) has on education, computer science, and society. Taking an interdisciplinary approach, it looks at the positive and negative implications and delivers a comprehensive understanding of how the integration of AI is shaping the future of human existence. This book covers twelve topics that reveal the links between AI and humans. The topics range from the transformational role of technology in education to the ethical considerations surrounding AI's application, plus many more. Specifically, it investigates how AI algorithms are pushing the boundaries of inventions in computer science and driving innovations in human-computer interaction and software development through themes such as Computer Science and Technological Frontiers. It also reflects on the societal impact of AI and offers tools to navigate the changing landscape of technology and humanity. With discussions on the latest advancements in AI and their implications for future innovations, readers of this book will learn of the ethical challenges posed by AI through in-depth analysis, including coverage of equity, privacy, and algorithmic bias. Artificial Intelligence and Human Existence: Insights on Education, Technology, and Society is for researchers, educators, policymakers in the fields of human factors, human-computer interaction, and computer science, plus anyone interested in the links between AI and human society.

*Liquid Legal – Sustaining the Rule of Law* Kai Jacob, Dierk Schindler, Roger Strathausen, Bernhard Walzl, 2025-05-05 This book is a comprehensive guide for legal business and technology professionals seeking to understand the intersection of sustainability and emerging technologies in the legal ecosystem. The book takes a critical look at the role of AI and cloud technologies in promoting sustainable legal practices and addresses the potential risks and ethical considerations associated with these technologies. The book explores the concept of sustainability in a legal context, highlighting the need for the legal system to sustain itself in order to sustain society at large. The chapters cover a wide range of topics, from the use of generative AI and open legal data to promote access to justice to the codification of corporate cultural intelligence to mitigate risks associated with AI. The book also addresses the potential

dark side of AI in the legal market including the risks of autonomy liability legal and ethical issues that arise when using AI in legal decision making processes The authors explore the need for sustainable digital transformation as a prerequisite for sustainable law highlighting the importance of understanding the ethical and legal implications of AI in the legal system

**Economic Challenges and Young Adults** Magdalena Osińska,2025-06-17 In recent years there has been an unprecedented shift in the attitudes of young individuals towards the key economic issues they encounter as they embark on their adult lives Sociologists have identified two distinct generations namely Generation Y and Generation Z which exhibit behaviours contrary to those of their parents and older generations The reasons behind these shifts are shared across European countries where these generations have experienced lives characterized by peace cultural diversity globalization economic stability relative economic and social well being as well as parental care and education Addressing a gap in the economic literature this book uniquely bridges the current understanding of youth with empirical evidence specific to Central and Eastern European Countries represented by Poland and Czechia Germany was taken as an example of a Western European Country The novelty lies in identifying the contemporary trends and determinants shaping the decision making process of young adults regarding the labour market savings and investments job satisfaction retirement and sustainable consumption The book draws on a theoretical foundation from both economic and sociological perspectives The book comprises ten interconnected chapters each contributing to the central theme of youth intentions and attitudes toward economic financial issues The summary is presented from the perspective of contemporary megatrends The target audience includes students and researchers in fields related to contemporary economic challenges such as economics psychology and sociology Given the challenges faced by young adults from post socialist states implementing the policy recommendations in the book may contribute to reducing the gap between them and their counterparts in Western European countries Institutions involved in social policy including both non governmental organizations and public entities will also find the policy implications to be of interest

*Sustainability in Creative Industries* Muhammad Nawaz Tunio,Jorge Miguel Chica Garcia,Ayman M. Zakaria,Yasmin Moanis Latif Hatem,2024-04-17 In this volume sustainable creative industries become a beacon for innovative change forging a path towards a conscious harmonious world This volume offers a panoramic view of the future where innovations in fashion and visual media blend seamlessly with a commitment to a more sustainable and impactful world More specifically this volume explores the compelling interplay of sustainability creativity and advocacy casting a spotlight on the transformative potential within fashion and visual media It embarks on a journey through the innovative landscapes of fashion where sustainability takes center stage through an exploration of genderless mode development contemporary patterns and reimagined design strategies that breathe new life into tradition As readers explore the chapters within the symbiotic relationship between visual media and sustainability emerges further delve into the evolution of visual communication design and the potency of Instagram microblogs in shaping perceptions and awareness

Furthermore the role of design in disseminating critical information during disasters is unveiled and the ways in which narrative methods can ignite meaningful change explored
