Megapolitan America Arthur Nelson, Robert Lang, 2018-02-06 With an expected population of 400 million by 2040 America is morphing into an economic system composed of twenty three megapolitan areas that will dominate the nation's economy by midcentury These megapolitan areas are networks of metropolitan areas sharing common economic landscape social and cultural characteristics The rise of megapolitan areas will change how America plans For instance in an area comparable in size to France and the low countries of the Netherlands and Belgium considered among the world's most densely settled America's megapolitan areas are already home to more than two and a half times as many people Indeed with only eighteen percent of the contiguous forty eight states land base America's megapolitan areas are more densely settled than Europe as a whole or the United Kingdom Megapolitan America goes into spectacular demographic economic and social detail in mapping the dramatic and surprisingly optimistic shifts ahead It will be required reading for those interested in America's future

The Middle-Class New Deal A. Mechele Dickerson, 2026 An expansive policy blueprint for meaningfully expanding the middle class for the first time in a century The US middle class was a product of state and federal policies enacted in the wake of the Great Depression But since the 1980s lawmakers have undermined what they once built shredding the social safety net and instituting laws that virtually guarantee downward mobility for all but the most privileged How can we restore what has been lost Rigorous and highly readable The Middle Class New Deal breaks down the policies that have decimated working families and proposes reforms to reverse this trend As Mechele Dickerson shows part of the problem is that politicians disingenuously conflate the middle class with the White lower rich Such propaganda hides how state and federal lawmakers consistently favor education labor housing and consumer credit laws that erode the bank accounts of lower and middle income people especially those who are not White and don't have college degrees Weaving together the latest research with the personal stories of Americans struggling to make ends meet Dickerson provides a clarion call for political leaders to enact a bold agenda like the one that created the middle class almost a century ago

Accelerated Action Learning William J. Rothwell, Smita Singh (Dabholkar), Jihye Lee, 2024-01-31 In a knowledge-based society, people should not simply collect knowledge but should utilize and apply it to solve a problem. Action learning makes organizational members learn while solving real problems in the workplace. However, traditional action learning might not be effective for rapidly changing environments because it is typically a process that requires substantial time. Therefore, this book provides a guideline on how to apply action learning quickly in workplaces, especially in virtual settings. Action learning allows the organization to develop people while at the same time getting work done. It is an alternative to classroom-based and online learning programs. In addition, it can also be an alternative to the instructional systems design (ISD) model or the successive approximation model (SAM) as a means of developing planned instruction if used for that purpose. Action learning can be an effective tool for Web 2.0 learning. Many organizations are now using self-directed teams and other team formats for work. It makes sense to revisit planned on-the-job training and learning with an emphasis on teams. Action learning is a process involving a small group with facilitators and action learning process managers, so it is one of the best

options for team based problem solving This book provides real action learning cases There are needs that have emerged in these post pandemic times There is a need to explain how action learning can be applied to various settings issues and challenges Since COVID 19 occurred many people must work in virtual or hybrid settings This book gives trainers who could be HR managers operating managers or learning and development professionals guidelines that can be used in virtual settings to meet the new needs Essentially this book is written for team facilitators supervisors managers or team members who wish to plan action oriented problem based and work related learning experiences in real time Because many action learning books are written for an academic audience it is not easy to put action learning into practice Therefore the goal of this book is to provide guidelines on how action learning starts what basic principles should be considered and what tools and techniques are needed for rapid action learning The book is intended to be a primer on how to facilitate a planned learning project in a team or workgroup

Emerging Work Trends in Urban India Nidhi Tandon, Pratyusha Basu, Omkumar Krishnan, Bhavani R.V., 2022-03-10 This book offers an overview of India's emerging digital economy and the resulting challenges and opportunities for urban workplaces It examines contemporary economic and social transformations in India by focusing on how new technologies and policies are shaping urban work practices and patterns The book emphasizes inclusive and equitable practices that consider the needs of the formal and informal sector workforce as essential to India's urban development Drawing on cross disciplinary frameworks it examines key issues related to work trends in the Indian urban economy and its digital landscapes including Industry 4.0 and technology labour nexus smart cities and innovation urbanism and consumerism workplace transitions such as service industry and remote work digital divide skill development initiatives and the impact of socio economic inequalities and disruptions The authors provide perspectives on the digital future of urban work in India and other emerging economies in the post COVID 19 phase and underscore the importance of enacting balanced policies remodelling institutions and equipping the labour force for adapting to new demands related to future employability and investments This book will interest students teachers and researchers of urban studies urban sociology sociology of work labour studies human and urban geography economic geography urban economics development studies urban development and planning public policy regional planning politics of urban development social and cultural change urban sustainability environmental studies management studies South Asian Studies and Global South studies It will also be useful to policymakers non governmental organizations activists and those interested in India and the future of the global economy

Psychological Well-being and Behavioral Interactions during the Coronavirus Pandemic Bat Katzman, Tal Harel, Ariela Giladi, Meni Koslowsky, 2022-06-16 This volume discusses how the COVID 19 pandemic has affected people's working environment learning experiences and personal lives in countless ways As such it discusses how a better understanding of the virus's exponential growth has led to more effective policy making and ultimately lower infection rates It also considers online learning workplace changes and the status of furloughed employees The book also considers the
