Handbook of Research on Current Trends in Cybersecurity and Educational Technology Jimenez, Remberto, O'Neill, Veronica E., 2023-02-17 There has been an increased use of technology in educational settings since the start of the COVID 19 pandemic. Despite the benefits of including such technologies to support education, there is still the need for vigilance to counter the inherent risk that comes with the use of such technologies as the protection of students and their information is paramount to the effective deployment of any technology in education. The Handbook of Research on Current Trends in Cybersecurity and Educational Technology explores the full spectrum of cybersecurity and educational technology today and brings awareness to the recent developments and use cases for emergent educational technology. Covering key topics such as artificial intelligence, gamification, robotics, and online learning, this premier reference source is ideal for computer scientists, industry professionals, policymakers, administrators, researchers, academicians, scholars, practitioners, instructors, and students.

The Work Smarter Guide to Presenting Louisa Clarke, 2024-06-13 Fact: most people would rather die than present in public. According to the National Institute of Mental Health, 75% of people rank fear of speaking in public as their number one fear. In second place, death. For many people, presenting arouses fear of failure, of forgetting their content, of appearing nervous, of being ignored or judged by their audience, of encountering the unexpected, of technology, of going on too long or drying up. And too many presentations are lifeless, pointless, and go on far too long. Yet the ability to stand up and give a presentation, a speech, a lesson, or a toast in a way that captures your audience's attention and actually makes them think, feel, or do something as a result is one of the most effective ways to stand out at work and in life. This book is a shortcut to making you shine on stage when you are under the spotlight or presenting on screen. It is a supremely practical guide to giving presentations that will take away the fear factor by providing the tips, techniques, and tools to create and deliver presentations you'll enjoy giving and your audience will want to hear. Think of it as a friendly and experienced coach who can help you focus on the things that really make the difference in presenting so you can project the real you to the world in a way that feels comfortable and smart. The Work Smarter series: Our books provide shortcuts, tips, and life hacks for the development of essential business skills. The books bring together accomplished industry experts who have learned their trades at the coalface. They teach the skills ambitious businesspeople need in order to tip the playing field in their favour. It is the pirate equivalent of business advice: the antidote to conventional wisdom, smarter practice over best practice. **Fitness Empire: Building a Personal Training or Wellness Brand** Ajah Excel, 2025-01-20 Unleash your potential and build a fitness brand that stands out in a crowded industry.
