Detailed Remote Work Productivity Ideas For Gen Z:

The Ethical Persuasion Artist Belinda Nell, 2025-08-20 The Sales Book That Won't Make You Want to Hide Under Your Desk You've thrown more cash at sales courses than most people spend on a decent car You've endured countless webinars promising to transform your pipeline and sat through seminars where shouty motivational speakers flog their next course for roughly the price of a kidney Yet here you are still wondering how to close deals without feeling like a complete fool Say hello to *The Ethical Persuasion Artist* the sales book that talks to you like a grown up instead of a walking wallet with abandonment issues The sales industry overflows with people teaching techniques they've never actually used to close proper deals with real money It's like taking driving lessons from someone whose only experience with cars involves watching *Top Gear* Your prospects can detect desperation quicker than a dodgy prawn sandwich They've been pitched at more times than a county cricket match and they're thoroughly cheesed off with salespeople who sound like they've consumed a corporate jargon manual for breakfast This book takes a different approach entirely and won't cure your insomnia It's written by someone who's actually sold things Proper things To genuine companies With actual budgets Groundbreaking stuff really You'll understand why emotions drive 95% of buying decisions which explains why your perfectly logical presentations keep losing to competitors who grasp that people buy with their hearts and justify with their calculators We'll examine the psychology of trust building because relationships matter more than your quarterly targets and customers can tell when you're more interested in your commission than their actual problems You'll learn to communicate across cultures without accidentally insulting anyone's business practices family traditions or preferred biscuit dunking methods We'll tackle virtual selling reality because video calls aren't disappearing and neither is your need to build genuine connections through a laptop screen whilst your cat attempts to gate crash every important meeting You won't discover cheesy closing techniques manipulation tactics that make you feel grubby or scripts that make you sound like a malfunctioning chatbot You will find research backed strategies that work genuine conversations you can have with actual humans and approaches that help you sleep better knowing you're genuinely helping people solve problems Perfect for sales professionals who want to close more deals without losing their dignity are fed up with courses costing more than a small house deposit believe business relationships should be built on mutual respect rather than mutual deception and suspect there might be a better way to sell without checking their soul at reception Stop wasting money on sales training that doesn't work Start building communication skills that turn prospects into advocates and transactions into proper relationships Your bank account will thank you Your conscience will thank you Your prospects might actually thank you too
