**Altmetrics for Information Professionals** Kim Johan Holmberg, 2015-09-03 The goal of any research assessment is to evaluate the value or quality of the research in comparison to other research As quality is highly subjective and difficult to measure citations are used as a proxy Citations are an important part of scholarly communication and a significant component of research evaluation with the assumption being

that highly cited work has influenced the work of many other researchers and hence it is more valuable Recently we have seen new online data sources being researched for this purpose and disruptive ideas with the power to change research assessment and perhaps even science as a whole have been born Altmetrics is the new research area that investigates the potential of these new data source as indicators of the impact that research has made on the scientific community and beyond and thus possibly also as indicators of the societal impact of research This book will present some of these new data sources findings from earlier altmetrics research and the disruptive ideas that may radically change scholarly communication Presents some of the key ideas and innovations in earlier research that have been driving the evolution from bibliometrics to webometrics and with the advent of social media to altmetrics Discusses the shortcomings and pitfalls of bibliometrics in research evaluation and the potential of altmetrics to overcome some of these shortcomings Presents some of the most important data sources of altmetrics the aggregators and the different stakeholders Reviews current research about altmetrics and discusses possible future trends Presents a way to measure and aggregate altmetrics according to the level of impact or type of impact they represent      *Reporting Humanitarian Disasters in a Social Media Age* Glenda

Cooper,2018-10-26 From the tsunami to Hurricane Sandy the Nepal earthquake to Syrian refugees defining images and accounts of humanitarian crises are now often created not by journalists but by ordinary citizens using Twitter Facebook YouTube Instagram and Snapchat But how has the use of this content and the way it is spread by social media altered the rituals around disaster reporting the close if not symbiotic relationship between journalists and aid agencies and the kind of crises that are covered Drawing on more than 100 in depth interviews with journalists and aid agency press officers participant observations at the Guardian BBC and Save the Children UK as well as the ordinary people who created the words and pictures that framed these disasters this book reveals how humanitarian disasters are covered in the 21st century and the potential consequences for those who posted a tweet a video or photo without ever realising how far it would go

*Video Game Policy* Steven Conway,Jennifer deWinter,2015-10-14 This book analyzes the effect of policy on the digital game complex government industry corporations distributors players and the like Contributors argue that digital games are not created nor consumed outside of the complex power relationships that dictate the full production and distribution cycles and that we need to consider those relationships in order to effectively read and analyze digital games Through examining a selection of policies e g the Australian government s refusal until recently to allow an R18 rating for digital games Blizzard s policy in regards to intellectual property Electronic Arts corporate policy for downloadable content DLC they show how policy that is to say the rules governing the production distribution and consumption of digital games has a tangible effect upon our understanding of the digital game medium      EventDV ,2007
