Library Journal ,2005 Convene ,2008-07 **The New Media Book** Dan Harries,2002 What will prove to be the lasting impact of New Media on film and television What kinds of transformations of moving image media are really already under way The term new media has become an effective catch word both as a description of the digital delivery of media via the Internet DVD and digital television and as a reference to the newness such technologies have brought to media more generally And yet the nature of this transformation has been over hyped and too little understood The New Media Book provides an accessible critical intervention into the field of moving image studies and features 20 newly commissioned and thought provoking essays in a format designed to be of wide use to a range of courses in digital media film and television studies The book is divided into five thematic sections Technologies Production Texts Consumption and Contexts and addresses how new media is both embracing and altering the existing media landscape Topics discussed include the ways in which we interact with digital television the changing methods of production distribution and exhibition within the media industry and how the histories of traditional media have influenced the development of new media The New Media Book examines the corresponding influences that traditional media and new media are having upon each other as well as revisiting central continuing issues surrounding the moving image and the contexts in which all the media operate The collected essays present and redefine these crucially important topics providing the most systematic analysis of both change and continuity in the contemporary media landscape yet published in the field of screen studies Adweek ,2010 *The Publishers Weekly* ,2010 *Bottled Water Reporter* ,2007 **Sh'ma** ,2004 Web 2.0 and Beyond Tom Funk,2009 This book presents a

wealth of ideas that will enable any business to quickly and affordably deploy Web 2.0 best practices to gain customers and maximize profits. Web 2.0 is more a series of trends than a basket of things. More and more power is in the hands of individual users and their networks. Web content is distributed, sorted, combined, and displayed across the Web in formats and places not anticipated by the content creators. New technology now makes rich online experiences and complex software applications possible and at a low cost. Integration is breaking down walls between PCs and mobile devices.
