Student Agency in Devised Theatre Education Mike Poblete,2025-02-27 This monograph argues that implementing devised theatre as a learning praxis has a unique potential to cultivate student agency in the twenty first century classroom It offers actionable guidance for drama instructors by providing a new arts education methodology that emphasizes the role of student led dramaturgy Based on quantitative and qualitative analyses of survey results group interviews and field observations from the facilitation of two original pieces of digital devised theatre created by Pacific Islander and Asian American public high school students on O ahu the author documents the crucial roles of constructive and resisting student agency in a devised theatre classroom This book then departs from established research in suggesting that passivity serves a crucial role in allowing students to assert agency nonconfrontationally which has considerable implications for peripatetic learners It also investigates the role of student agency in online theatre education which along with expected challenges was found to produce unique benefits such as real time documented performance feedback and accessible asynchronous teacher guidance Further a new form of student agency is identified one exclusive to online learning environments where students assert themselves by discussing technological challenges such as slow Wi Fi camera malfunctions or other pragmatic concerns Finally this book makes a case that the success of these projects with Pacific Islander and Asian American students
