sale or a referral when a visitor to his or her site clicks on a link that directs him or her to a product or page online. However, as much as there is a lot of truth there, Affiliate Marketing does not only have to take place online. For example, affiliate marketing is also where a plumber gives a client a discount for referring him or her to a new client. It is the same concept. This kind of marketing happens a lot in the real world, but people do not trace or coordinate it as much as is the case with online marketing. Business owners can ask their customers how they came to know about them in an effort to learn about their client base, but they cannot get as much information as they would be using online tracking. The growing online market has made this type of marketing more popular and profitable. It has also made it easier to grow and expand whatever type of business an individual is in with the help of numerous professional marketers who will not necessarily appear on their payroll. Therefore, while its history started long before the invention of the Internet, the Internet has transformed it and made it widely available to the masses. You will start by learning all about the ins and outs of affiliate marketing and what you need to get your feet wet in the marketing world. You will then learn about the importance of choosing the right niche and how to find one that will provide you with a sustainable passive income stream for years to come. From there, you will learn the key steps to creating a website that will attract the right type of users, as well as the importance of SEO and how to ensure that your new website shows up in as many different sets of search results as possible. Finally, you will learn just what it takes to create the type of quality content that ensures people keep coming back for more month after month and year after year. Every effort was made to ensure it is full of as much useful information as possible. Please enjoy.

The most critical steps involved in the process of affiliate marketing is creating content. The content is what draws people to your blog or website and helps with finding affiliates. Remember that content is King and it is essential to come up with some that bring value to your customer. Read this book to understand how to find a niche that can help you stick out from all the other affiliate marketers who are circling the same general product thus making your affiliate marketing more effective in the long run. This can be more difficult than it sounds however as not every niche and sub niche is automatically going to be profitable which is why it is important to do the proper research before you get started to avoid wasting your time. As an affiliate you first sign up with the advertiser either through an affiliate network or directly. After the contract is signed you will get a special affiliate URL or link containing the affiliate's username ID. You then use this link for display on your website. Sometimes the advertiser will send some creative content or banners to you that need to appear on your website. These details usually form part of the agreement. When a visitor to your website clicks on the advertiser's link a cookie from the advertiser is dropped onto the visitor's computer. The customer then makes a purchase or does a required transaction on the advertiser's link. When the visitor completes the transaction the advertiser will check the cookie on the computer and find your affiliate ID and give you credit for the transaction. This book will also help you learn how to select the best physical or digital products that you can go for as an affiliate. The amount of money that can be made is humongous if the right methodology is adopted. Here is a preview of what you will learn:
