for peripatetic learners It also investigates the role of student agency in online theatre education which along with expected challenges was found to produce unique benefits such as real time documented performance feedback and accessible asynchronous teacher guidance Further a new form of student agency is identified one exclusive to online learning environments where students assert themselves by discussing technological challenges such as slow Wi Fi camera malfunctions or other pragmatic concerns Finally this book makes a case that the success of these projects with Pacific Islander and Asian American students suggests that although devising comes from a White Eurocentric tradition it can provide an effective learning strategy for students from a wide variety of backgrounds As global discourse continues to push toward reform that would allow populations around the world increased agency over their lives this volume makes a unique contribution to the critical conversation around student agency in education today and will appeal to scholars and researchers across arts education and theatre and performance studies
