Online Social Networks in Business Frameworks Sudhir Kumar Rath, Bright Keswani, Rakesh Kumar Saxena, Sumit Kumar Kapoor, Sangita Gupta, Romil Rawat, 2024-09-17 This book presents a vital method for companies to connect with potential clients and consumers in the digital era of Online Social Networks OSNs utilizing the strength of well known social networks and AI to achieve success through fostering brand supporters generating leads and enhancing customer interactions There are currently 4.8 billion Online Social Network OSN users worldwide Online Social Networks in Business Frameworks presents marketing through online social networks OSNs which is a potent

method for companies of all sizes to connect with potential clients and consumers. If visitors are not on OSN sites like Facebook, Twitter, and LinkedIn, they are missing out on the fact that people discover, learn about, follow, and purchase from companies on OSNs. Excellent OSN advertising may help a company achieve amazing success by fostering committed brand supporters and even generating leads and revenue. A type of digital advertising known as social media marketing (SMM) makes use of the strength of well-known social networks to further advertise and establish branding objectives. Nevertheless, it goes beyond simply setting up company accounts and tweeting whenever visitors feel like it. Preserving and improving profiles means posting content that represents the company and draws in the right audience, such as images, videos, articles, and live videos, addressing comments, shares, and likes while keeping an eye on the reputation to create a brand network and following and interacting with followers, clients, and influencers.

Human-Centered Marketing Ashley Faus, 2025-05-03

With the rise of AI, excess of distribution channels, and focus on tracking every touchpoint in order to drive revenue, consumer trust is at an all-time low. To restore trust, brands need to create delightful, seamless, and impactful journeys to connect with the humans behind the screen. Human-Centered Marketing introduces three frameworks to help mid-senior level marketers find, connect with, and convert audiences. The book helps you map an audience journey that behaves like a playground instead of a linear funnel, evolve the approach to social media to go beyond conversations and instead facilitate and engage with the community, and build thought leaders to build trust and move your audience into the future. Each chapter includes practical advice to help seasoned marketers shift their strategy and offers tactical implementation recommendations. All chapters include real-world examples from companies like Adobe, Hubspot, and Edelman to demonstrate that this shift from the standard playbook actually works.
