Claude Pepper And Ed Ball Politics Purpose And Power:

Claude Pepper and Ed Ball Tracy E. Danese, 2000 The power struggle between Claude Pepper and Ed Ball in the mid twentieth century in large part determined the future of Florida This lively account of their interlocking careers both dominated by a personal quest for power money and purpose illuminates the historical role of these two forceful personalities Ed Ball brother in law of Alfred I duPont and trustee of the duPont empire was at one time the single most powerful businessman in the state Claude Pepper a senior U S senator was the state s heir to the liberal legacy of New Deal politics By mid century the duPont Ball empire controlled a major part of the Florida business and political establishment but not Claude Pepper Tracy Danese whose law career has often brought him into close contact with Florida s political scene describes the economic setting in Florida when Ball and Pepper arrived in the twenties and the prelude to their conflicts and shows how their careers developed in tandem throughout the depression era and World War II and its aftermath He discusses milestones in this story Pepper s unopposed election in 1936 influenced by corruption in Hillsborough County politics in the 1934 senate election conflict between Pepper and Ball over the presidential veto of a 1944 war funding measure their acrimonious struggle over ownership of the Atlantic Coast Line Railroad the famous Florida East Coast Railway strike that led to measures that forced the duPont trust to divest itself of the largest banking chain in Florida and their final titanic clash over the senatorial election of 1950 With a strange blend of principled behavior and personal ambition the men personified the ambiguous nature of politics Ed Ball adamantly upheld what he viewed as his property rights Pepper unabashedly sought political power Until now only bits and pieces of their dynamic clash have been told The two figures still are fresh in the minds of many Floridians and this story will be welcomed by historians political scientists and general readers alike

Green Empire Kathryn Ziewitz, June Wiaz, 2024-03-26 Since the Great Depression the St Joe Company formerly the St Joe Paper Company has been Florida s largest landowner a forestry and transportation conglomerate whose influence has been commensurate with its holdings The company owns nearly one million acres mainly in northwestern Florida where undeveloped coastal and riverside landscapes boast some of the state s most scenic and ecologically diverse areas For 60 years the company focused on growing trees turning them into paper and managing its ancillary businesses In the late 1990s the company shifted directions it sold its paper mill changed its name and launched a concerted drive to turn its natural resource assets into greater profits Today the St Joe Company is a critical and fiscally powerful force in the real estate development of northwest Florida with access to the most influential people in government Based on hundreds of sources including company executives board members and investors as well as outside observers this factual and balanced history describes the St Joe Company from the days of its founders to the workings and dealings of its present day heirs For anyone concerned with land use and growth management particularly those with an interest in Florida s fragile wildlife and natural resources Green Empire will illuminate the issues surrounding the relationship between one of the most ambitious players in

Florida's real estate market and the state's last frontier **Claude Pepper and Ed Ball** Tracy E. Danese, 1997 **Making Modern Florida** Adkins, Mary E, 2016-07-12 Mid twentieth century Florida was a state in flux Changes exemplified by rapidly burgeoning cities and suburbs the growth of the Kennedy Space Center during the space race and the impending construction of Walt Disney World overwhelmed the outdated 1885 constitution A small group of rural legislators known as the Pork Chop Gang controlled the state and thwarted several attempts to modernize the constitution Through court imposed redistribution of legislators and the hard work of state leaders however the executive branch was reorganized and the constitution was modernized In *Making Modern Florida* Mary Adkins goes behind the scenes to examine the history and impact of the 1966-68 revision of the Florida state constitution With storytelling flair Adkins uses interviews and detailed analysis of speeches and transcripts to vividly capture the moves gambits and backroom moments necessary to create and introduce a new state constitution This carefully researched account brings to light the constitutional debates and political processes in the growth to maturity of what is now the nation's third largest state *A Most Disorderly Court* Martin A. Dyckman, 2008-03-30 A compelling story of scandal and reform at the highest levels of state government In the 1970s justices on the Florida Supreme Court were popularly elected But a number of scandals threatened to topple the court until public outrage led to profound reforms and fundamental changes in the way justices were seated One justice abruptly retired after being filmed on a high roller junket to Las Vegas Two others tried to fix cases in lower courts on behalf of campaign supporters A fourth destroyed evidence by shredding his copy of a document into seventeen equal strips of paper that he then flushed down a toilet As the journalist who wrote most of the stories that exposed these events Martin Dyckman played a key role in revealing the corruption favoritism and cronyism then rampant in the court *A Most Disorderly Court* recounts this dark period in Florida politics when stunning revelations regularly came to light He also traces the reform efforts that ultimately led to a constitutional amendment providing for the appointment of all Florida's appellate judges and emphasizes the absolute importance of confidential sources for journalists *Come to My Sunland* Julia Winifred Moseley, Betty Powers Crislip, 2020-10-14 Like so many midwesterners since Julia Daniels and Charles Scott Moseley moved to Florida in the 1880s seeking a warmer climate This collection of Julia's letters mainly to her husband who made frequent business trips north and to her close friend Eliza Slade reveals the struggle of a cultured urban woman adjusting to the hardship and isolation of life in pioneer Florida And then coming to love it Tramping through the unsullied land surrounding the Limona community near Tampa where they settled she gloried in her neglected corner in the Garden of Eden where she could look up fifty feet and see air plants growing on the branches of great oaks and hundreds of ferns nodding in the sunlight and gray moss moving through the trees like mist Think of me gazing up among crane's nests with redbirds in my own oaks she wrote Even in the nighttime a mocking bird often sings to me of all the beautiful things I love Julia herself a published writer selected these unedited letters and copied them for her family into a thick leather book Like characters in a novel the friends and relatives

she describes crackle with personality a flamboyant Russian proclaims his version of communism a New England spinster counters with Utopian visions and a university professor retreats from the ivory tower to agricultural experimentation Readers observe Julia s flair for making daily life cheerful and they meet the couple s two adored sons and Scott s children by an earlier marriage as well as Cracker settlers cattle runners and assorted seekers of health or wealth An artist Julia created a distinctive home designed and decorated in the manner of the pre Raphaelites Her palmetto fiber wall covering was exhibited at the Chicago World s Fair in 1893 and survives today The Florida house named The Nest is on the National Register of Historic Places Accompanied by 71 photographs of Julia s home and family these letters transcend the life of one woman to capture the experience and spirit of 19th century Florida
