Client Server Programming With Powerbuilder:

  Client/Server Programming with PowerBuilder Jan Harrington,1997-01-01   **PowerBuilder 5 Developer's Resource** Robin Schumacher,Billy Bosworth,1997 This text and CD ROM package presents information on how to use PowerBuilder in a real world environment such as a corporate network or for critical application The CD ROM contains 1000s of lines of proven PowerBuilder code including Oracle 7 database performance monitor   PowerBuilder 9 Bruce Armstrong,Millard Brown,2003 Over a decade ago PowerBuilder introduced the idea of rapid Client Server application development and for much of that time was the leader in both technology and sales in the enterprise development market Although PowerBuilder has lost significant market share to Visual Basic and Delphi it still enjoys an intensely loyal developer community of close to 300 000 Version 9 of PowerBuilder continues the tradition of introducing leading edge technology to these developers PowerBuilder 9 Client Server Development zeroes in on the most important aspects of building client server applications in PowerBuilder including PBNI native interface PFC foundation classes and database connectivity   Client/server Application Development with PowerBuilder Jan L. Harrington,1996 Covers the new Windows 95 versions of Word Excel Access and PowerPoint in the context of real business problems   **Professional PowerBuilder Programming** Paul Bukauskas,Bruce Braunstein,1997 A tutorial designed for programmers familiar with Powerbuilder who are now interested in learning more sophisticated client server applications The book provides advanced techniques and concepts for the Powerbuilder 4 0 programmer including multiple document interfacing SQL and Datawindows techniques and User Objects CD contains exercises and applications   *Foundations of PowerBuilder 5.0 Programming* Brian J. Smith,1996 Now developers programmers and analysts who create PowerBuilder applications can get a complete look at the newest version of PowerBuilder and its enhanced features including a new compiler Special sections explain how to use PowerBuilder for object oriented programming and team development The disk includes a hypertext version of the book   **Computerworld** ,1993-10-25 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network   **InfoWorld** ,1993-11-15 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects   **Computerworld** ,1993-10-11 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network   **Software Maintenance - A Management Perspective** Phaneendra Nath Vellanky,2007-10-23 Computer systems play an important role in our society Software drives those systems Massive investments of time and resources are made in developing and implementing these systems Maintenance is

inevitable It is hard and costly Considerable resources are required to keep the systems active and dependable We cannot maintain software unless maintainability characters are built into the products and processes There is an urgent need to reinforce software development practices based on quality and reliability principles Though maintenance is a mini development lifecycle it has its own problems Maintenance issues need corresponding tools and techniques to address them Software professionals are key players in maintenance While development is an art and science maintenance is a craft We need to develop maintenance personnel to master this craft Technology impact is very high in systems world today We can no longer conduct business in the way we did before That calls for reengineering systems and software Even reengineered software needs maintenance soon after its implementation We have to take business knowledge procedures and data into the newly reengineered world Software maintenance people can play an important role in this migration process Software technology is moving into global and distributed networking environments Client server systems and object orientation are on their way Massively parallel processing systems and networking resources are changing database services into corporate data warehouses Software engineering environments rapid application development tools are changing the way we used to develop and maintain software Software maintenance is moving from code maintenance to design maintenance even onto specification maintenance Modifications today are made at specification level regenating the software components testing and integrating them with the system Eventually software maintenance has to manage the evolution and evolutionary characteristics of software systems Software professionals have to maintain not only the software but the momentum of change in systems and software In this study we observe various issues tools and techniques and the emerging trends in software technology with particular reference to maintenance We are not searching for specific solutions We are identifying issues and finding ways to manage them live with them and control their negative impact   InfoWorld ,1996-09-23 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects   **Distributed Application Development with PowerBuilder 6** Michael Barlotta,1999 Covering PowerBuilder DPB in great detail going over various concepts and components that are involved with building an application and making it available over the network this resource begins with an explanation of the main thrust behind distributed computing followed by the steps of creating a simple application An exploration of how PowerBuilder can be used in distributed solutions both with and without using DPB is also provided   1001 Programming Resources Edward J. Renehan,Edward Renehan,1996 1001 Programming Resources features key Web sites programmers must visit and shows how to access product descriptions and detailed documentation in minutes Download sample programs in C C Java Perl Visual Basic and more The CD ROM contains programming tools Java and Perl an electronic book and demos
