Minority and Cross-cultural Aspects of Neuropsychological Assessment F.R. Ferraro, 2002-01-01 Minority and Cross Cultural Neuropsychological Assessment pulls together neuropsychological assessment issues across a wide range of minority groups and populations currently underserved Included are chapters related to African Americans Asian Pacific Islanders Hispanic Latinos Native Americans and Rural Populations Some minority groups have not been as widely studied or examined as other groups from a neuropsychological assessment perspective This book will fill this obvious void Other chapters are devoted to traditions and trends in clinical neuropsychology and there is a section that examines the future of minority and cross cultural issues in neuropsychological assessment The current literature regarding minority and cross cultural issues in neuropsychological assessment is quite scattered and it is the goal of this book to provide a more thorough review and refinement of the issues presented

Detection of Malingering during Head Injury Litigation Cecil Reynolds, Arthur MacNeill Horton, Jr., 2012-03-23 Increased public awareness of traumatic brain injuries has fueled a number of significant developments on the one hand more funding and more research related to these injuries and their resulting deficits on the other the possibility of higher stakes in personal injury suits and more reasons for individuals to feign injury Expanding both the conceptual and clinical knowledge base on the subject the Second Edition of *Detection of Malingering during Head Injury Litigation* offers the latest detection tools and techniques for veteran and novice alike As in its initial incarnation this practical revision demonstrates how to combine clinical expertise carefully gathered data and the use of actuarial models as well as common sense in making sound evaluations and reducing ambiguous results And the book navigates the reader through the many caveats that come

with the job beginning with the scenario that an individual may be malingering despite having an actual brain injury Among the updated features Specific chapters on malingering on the Halstead Reitan Luria Nebraska and MMPI 2 A framework for distinguishing genuine from factitious PTSD in head injury cases Detailed information regarding performance on the WMT MSVT and NV MSVT by children with developmental disabilities Guidelines for explaining symptom validity testing to the trier of fact Entirely new chapters on mild TBI and on malingering of PTSD symptoms in the context of TBI litigation Professional neuropsychologists and forensic psychologists will appreciate this new edition of Detection of Malingering during Head Injury Litigation as an invaluable source of refinements to their craft and improvement as an expert witness
