Rethinking Work Rishad Tobaccowala, 2025-02-04 A sea change is occurring a change so monumental that it is making us re invent the traditional ideas of where work is done when work is done why work is done and even what work itself is We have a choice We can either be reactive and struggle to adjust to transformational events on the fly or we can be proactive and control the narrative reinventing work to align with the evolving environment Futurist Rishad Tobaccowala has had a highly successful career because he has anticipated and capitalized on emerging trends In *Rethinking Work* Rishad outlines the reasons why being proactive in this era of unprecedented change is the only way organizations will survive and thrive Schools banks law firms startups medical offices every sector will be affected by the current or soon to be emerging trends and events that Rishad describes in this invaluable guide Learn to thrive in a world where the who what why where when and how of work will be transformed Who will people work for A growing number of people are choosing to work for themselves while others are opting for greater control over who they work for This will lead to more options both for employees and employers on how to structure their work What will organizations look like Like nothing in the past We will no longer have a single organizational model or design but instead have a wide range of operating styles structures and sizes Why will people work Two thirds of workers under 30 are combining different gigs to not only satisfy their financial needs but to their own personal satisfaction and sense of purpose Where will people work In the metaverse At home In morphing offices that bear little resemblance to traditional workspaces With team members in other countries and customers on other continents When will people work Whenever The 9 5 workday is already passing as efficiency lessens in importance to innovation disruption and agility How will leadership change We are evolving to a new type of leadership from management focused to growth agility and learning focused

Hustle Urbanism Tatiana Thieme, 2025-03-25 Exploring hustle as a social cultural and economic phenomenon in contemporary Nairobi In Nairobi s underserved neighborhoods hustle has emerged as both a vital survival strategy and a way of life for youth Exploring the multiple meanings and manifestations of the hustle economy across different scenarios of provisioning distribution exchange learning and mobilizing *Hustle Urbanism* draws on more than a decade of ethnographic engagement to center the logics perspectives and inventive strategies of a group of youth who constantly navigate job scarcity inadequate basic services and climate induced harms Tatiana Thieme shows how young people develop tools of resistance against the legacies of colonial violence and uneven urban development while carving out spaces of opportunity for themselves and their peers The stories she includes bring thick ethnographic detail and longitudinal perspective to the lives and livelihoods of youth whose diverse skill sets and knowledges span from circular economies and eco activism to hip hop and local leadership Filling a significant gap in both existing scholarship and popular discussion *Hustle Urbanism* offers critical theorization of precarious urban environments and the affirmative modes of making life work in the city against the odds While Thieme cautions against fetishizing hustle as a form of social and economic uplift she calls

for a greater recognition of the ingenuity and skill involved in hustle urbanism arguing that studying hustle narratives and practices opens up timely empirical and theoretical questions about overlapping urban struggles and possibilities that coexist in the everyday city Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions
