**Podcasting for Learning in Universities** Gilly Salmon, Palitha Edirisingha, 2008-07-16. Podcasting for Learning in Universities details several examples of research to practice for the successful use of podcasts in Higher Education, drawing from studies in the UK, Australia, and South Africa. The book offers a practical, transferable model and guidelines for integrating podcasts in higher education contexts. There is a dedicated website at [www.podcastingforlearning.com](http://www.podcastingforlearning.com) with further links and examples. The sheer range of ideas for using podcasts shown by the case studies will hopefully spark off a number of ideas for ways in which practice in one subject can be re-used in another. Case studies covering reflective learning, active learning, students' voices, fieldwork, distance learning, and learning transferable skills show that podcasts are flexible enough as a medium to deliver effective learning outcomes regardless of the subject.
