Law's Documents Katherine Biber, Trish Luker, Priya Vaughan, 2021-12-29 Illuminating their breadth and diversity this book presents a comprehensive and multidisciplinary view of legal documents and their manifold forms uses materialities and meanings In 1951 Suzanne Briet a librarian at the Bibliotheque Nationale in Paris famously said that an antelope in a zoo could be a document thereby radically changing the way documents were analysed and understood In the fifty years since this pronouncement the digital age has introduced a potentially limitless range of digital and technological forms for the capture and storage of information In their multiplicity and their ubiquity documents pervade our everyday life However the material intellectual aesthetic and political dimensions and effects of documents remain difficult to pin down Taking a multidisciplinary and international approach this collection tackles the question what is a legal document

in order to explore the material aesthetic and intellectual attributes of legal documentation the political and colonial orders reflected and embedded in documents and the legal archival and social systems which order and utilise information As well as scholars in law documentary theory history Indigenous studies art history and design theory and practice this book will also appeal to those working in libraries archives galleries and museums for whom the ongoing challenges of documentation in the digital age are urgent and timely questions *AI Act compact* Peter Hense, Tea Mustac, 2024-11-25 The EU AI Act is here and contrary to popular opinion it is not just Europe's problem As the first comprehensive law to regulate AI systems the AI Act attempts to establish a global framework setting limits on dynamic technological developments and creating new legal responsibilities for organisations worldwide The AI Act's definition of AI systems is expansive covering a wide range of technologies even those that until recently were considered traditional machine learning models This makes understanding and preparing for compliance even more critical because if your business involves AI the AI Act is now your business AI Act Compact is your go to tool for tackling the challenges imposed by the Act Written by Tea Mustac and Peter Hense experienced legal experts and hosts of the podcast RegInt Decoding AI Regulation this book provides a deep dive into the AI Act's key provisions processes and real world implications The AI Act introduces a new risk based framework establishing compliance assessments and relying on harmonized standards It imposes obligations for data governance data quality management accuracy and robustness risk management explainability non discrimination accountability liability human controllability and more Implementing these requirements presents significant practical challenges especially given their broad application to numerous actors along the AI supply chain Drawing heavily on international technical standards from CEN CENELEC ISO IEC and IEEE the authors provide a practical toolkit for managing AI risks and ensuring compliance Whether you're a lawyer data scientist or machine learning engineer this book offers clear actionable strategies for staying compliant and competitive in this fast evolving landscape **Resources in Education** ,1993-10 The National Guide to Educational Credit for Training Programs American Council on Education, 2005 Highlights over 6 000 educational programs offered by business labor unions schools training suppliers professional and voluntary associations and government agencies
