Through Metaverse Platforms Singla, Babita, Shalender, Kumar, Singh, Nripendra, 2024-03-04 Academia is grappling with a pressing challenge in the 21st century that mirrors the seismic shifts taking place in the business world. These two sides of one issue are both asking the same question: how can we seamlessly incorporate metaverse platforms into the complex web of omnichannel business models? Scholars and academics are confronted with the urgent need to understand and adapt to this new digital frontier. With the rise of metaverse technologies, the boundaries between physical and virtual realms are blurring, making it increasingly vital for scholars to bridge the gap between theory and practical application. This challenge not only touches on the fields of marketing, finance, HR, supply chain, and economics but also extends to the broader implications for industries and customer experiences as we know them. At the forefront of addressing this formidable challenge is *Omnichannel Approach to Co-Creating Customer Experiences Through Metaverse Platforms*. This groundbreaking book tackles this pressing issue head-on, offering a comprehensive solution to the challenges that academic scholars face. By providing a holistic perspective that covers a multitude of disciplines, the book demystifies the complexities of integrating metaverse platforms into omnichannel business models. It offers a roadmap not only for understanding these emerging technologies but also for harnessing their transformative power to create immersive and empowered customer experiences.

Digital Technologies and Institutions for Sustainable Development Aleksei V. Bogoviz, Elena G. Popkova, 2022-10-11 This book focuses on digital institutions and the advanced technologies used on their basis as well as their contribution to sustainable development in the unity of seventeen SDGs formulated by the UN, which is sequentially disclosed in six parts of the book. This book is dedicated to comprehensive coverage of the role of the digital economy in sustainable development and the offering of a set of scientific methodological and practical recommendations to increase the scale and effectiveness of this role. The first part explores the training of digital personnel for sustainable development; the second part reveals the regional features of Russia; and the third part describes the industry specifics of using digital technologies in entrepreneurship in support of sustainable development. The fourth part deals with financial, organizational, and managerial issues of using digital technologies in entrepreneurship in support of sustainable development; the fifth part is devoted to security, international factors, and risks; and the sixth part deals with the legal framework and state regulation of digital technologies and sustainable development institutions. The novelty of the book lies in its reliance on an institutional approach that allows rethinking and systematically studying the contribution of the digital economy to sustainable development. The book is aimed at scholars who will find in it an institutional understanding of the digital economy's support for sustainable development and ways to improve it. The secondary target audience of the book is the subject of managing the sustainable development of the digital economy. For them, the book contains relevant and illustrative examples from practice and applied recommendations.
