Controlling East West Trade And Technology Transfer Power Politics And Policies:

Controlling East-West Trade and Technology Transfer Gary K. Bertsch, 1988 Western efforts to control trade and technological relations with communist countries affect many interests and political groups in both Eastern and Western blocs Although there is general agreement within the Western alliance that government imposed controls are necessary to prevent material having military importance from falling in the hands of the Soviet Union and its Warsaw Pact allies there is considerable controversy over the specifics the exact definition of militarily significant material how the Western nations should administer controls the implications of glasnost and other matters Controlling East-West Trade and Technology Transfer Gary K. Bertsch, 1988 Western efforts to control trade and technological relations with communist countries affect many interests and political groups in both Eastern and Western blocs Although there is general agreement within the Western alliance that government imposed controls are necessary to prevent material having military importance from falling in the hands of the Soviet Union and its Warsaw Pact allies there is considerable controversy over the specifics the exact definition of militarily significant material how the Western nations should administer controls the implications of glasnost and other matters *United States Technology Export Control* Douglas E. McDaniel, 1993-03-17 This is a broad ranging study of U S strategic export control policy In particular this book analyzes and evaluates the effectiveness of export controls in delaying the acquisition of militarily sensitive high technology by the Soviet Union and its allied states Furthermore the question of whether or not U S economic competitiveness in various high technology sectors has been unduly undermined by export controls is also evaluated Numerous official government studies and reports supplemented by a host of interviews with government officials businesspeople and analysts in the United States and Europe are utilized in drawing conclusions and posting policy recommendations The consequences for export control policy of the revolutionary political upheavals in Eastern Europe and the former U S S R are also addressed The study concludes that the strategic security goal of utilizing controls to hinder and delay the acquisition of militarily significant high technology by the former Soviet Union and its allied states was generally effective More controversially McDaniel argues that export controls per se have not been a significant determinant of lagging U S competitiveness in high technology However this conclusion is qualified by the observation that while overall trends in U S high technology exports to important trading partners do not suggest that controls by themselves have unduly hurt U S exporters individual sectors and small firms may be disadvantaged Finally the study cautions that U S policy must adapt or risk becoming outmoded and increasingly ineffective This book will be of interest to scholars and students of international relations international political economy and international business **Knowledge Regulation and National Security in Postwar America** Mario Daniels, John Krige, 2022-04-25 The first historical study of export control regulations as a tool for the sharing and withholding of knowledge In this groundbreaking book Mario Daniels and John Krige set out to show the enormous political relevance that export control regulations have had for American debates

about national security foreign policy and trade policy since 1945 Indeed they argue that from the 1940s to today the issue of how to control the transnational movement of information has been central to the thinking and actions of the guardians of the American national security state The expansion of control over knowledge and know how is apparent from the increasingly systematic inclusion of universities and research institutions into a system that in the 1950s and 1960s mainly targeted business activities As this book vividly reveals classification was not the only and not even the most important regulatory instrument that came into being in the postwar era The EC, Eastern Europe and European Unity Peter van

Ham,2016-10-06 This text argues that the process of West European integration was encouraged and facilitated by the Cold War in which the threat posed by the Soviet Union temporarily inhibited internal conflicts and in which American hegemony provided the relatively stable and secure economic political and military framework in which the major West European countries were able to co operate and take major steps towards the ultimate ideal of a European Union *The Political*

Economy of the Arms Race R.T. Maddock,1990-06-18 Written by the author of *The Political Economy of Soviet Defence* Spending and co author of *The Growth of the British Economy* this book looks at the international dimension the American and the Soviet defence economy the NATO alliance the Warsaw Pact and the international arms trade **Trade,**

Technology and Security Seongho Sheen,2001 The U.S. Politics of Export Control Policy Toward the People's Republic of China Tuan Yao Cheng,1989 **Legal and Policy Issues of the Trade and Economic Relations Between China and the EEC :** Yuanxiang Hu,1991-09-16 This book covers the developments in the past ten years of trade and economic

cooperation between the EEC and China It gives a good account of the legal instruments which regulate the EEC China trade and economic relations Besides this book covers not only the EEC commercial policy towards China but the domestic Chinese laws and regulations on foreign investments as well **Commercial Competition and National Security** Claus

Hofhansel,1996-08-23 U S and German export control policies are compared showing how these policies have responded to the changes in the international environment including the end of the Cold War The policy differences are explained through an analysis of differences in state interests and external constraints state strategies domestic support for export controls and institutional constraints on policy change The conclusion put forward is that despite a partial convergence of U S and German export control policies in the 1990s diplomatic conflicts between the U S and European governments over export control issues will continue to erupt *The Politics of International Economic Relations* Joan Edelman Spero,Jeffrey A.

Hart,2003 The sixth edition of this text gives greater emphasis to economic globalization and focuses on changes that continue to reshape the international arena Coverage of political and economic relations economic polarization in developing nations and the forces of economic change in former communist countries Export Controls in Transition Gary K.

Bertsch,Steven Elliott-Gower,1992 Like many cold war artifacts the West s export control policies and institutions are being reevaluated after the tumult in the communist world at the end of the 1980s Policymakers and scholars are being forced to

reexamine the premises of export control policy and the very concept of export controls as a tool of national security and foreign policy This volume brings together expert scholars and government officials who provide contrasting perspectives and address the prospects for export controls The contributors discuss the role and function of export control policies from a variety of perspectives security commerce diplomacy the European region and that of the newly industrialized countries Among the topics covered are the problems the United States and the Western export regime will face in the 1990s in light of changing international political alliances and dependencies in defining strategic exports in enforcing export controls and the role of the Coordinating Committee for Multilateral Export Controls Contributors Sumner Benson Beverly Crawford Richard T Cupitt Dorinda G Dallmeyer Paul Freedenberg Martin J Hillenbrand Hanns Dieter Jacobsen Bruce W Jentleson Kevin J Lasher William J Long Janne Haaland Matlary Jere W Morehead Henry R Nau Han S Park Kevin F F Quigley Alen B Sherr Christine Westbrook Economic Containment Michael Mastanduno,1992 Export Control and WMD Nonproliferation Law Wei Luo,2009 **U.S. and Japanese Nonproliferation Export Controls** Gary K. Bertsch,Richard T. Cupitt,Takehiko Yamamoto,1996 The editors of this book have gathered writings from various contributors who discuss American and Japanese views of nonproliferation export controls Readers will see the U S s perspective and the Japanese perspective on controlling the export of dual use items for military security reasons and trading these items for economic benefits The book provides an analysis of issues ranging from technology control to democratization to the different interests and preferences of policy makers It also examines the possibility of a multilateral export control arrangement through the cooperation of Japan and the U S This examination includes identifying policy implication opportunities risks and constraints that influence and create an agenda for future nonproliferation export control research between Japan and the U S This book will enlighten readers to the potential of a balanced and durable global partnership The book will make a significant contribution to the on going discussion on the development of export controls in the post Cold War era It will appeal to students and teachers of foreign policy international relations comparative foreign policy comparative political economy and Japanese area studies It will also interest the policy making community The Fletcher Forum of World Affairs ,1994 **Journal of Economic Literature** ,1989 **International Cooperation on Export Controls** Michael Leslie Lipson,1999 This dissertation provides an explanation for recent standardization and growth of international export control regimes I argue that neoinstitutionalist organization theory contributes to an explanation of these organizations which coordinate efforts to limit the spread of weapons related technologies The neoinstitutionalist approach claims that organizational structures are often not selected for maximal effectiveness at tasks such as controlling weapons related exports Rather they are selected for their fit with norms shared within communities of organizations that interact regularly or share common tasks The dissertation adapts and applies this literature to the subject of export control cooperation through process tracing case studies of export control regimes such as CoCom and the Wassenaar Arrangement I argue that a transnational community of organizations or

organizational field has developed in the issue area of nonproliferation export controls While extant theories of International Relations help explain the origins of international export control cooperation they do not explain the extent or form such efforts have taken today Shared norms in this issue area and copying of organizations perceived as successful explain the growth and standardization of multilateral nonproliferation regimes and international export control practices These factors are highlighted by the sociological theories I draw upon The case studies are constructed from archival data interviews with policy makers trade literature and secondary sources

The Origins of COCOM John H. Henshaw, 1993 **The Myth of America's Decline** Henry R. Nau, 1990

Challenging the pessimists who focus only on the decline of American power Nau argues that outcomes depend much more on how America defines its political identity or national purposes in the world community and what specific economic policies it chooses In recent years America has projected a more self confident political identity anchoring an unprecedented trend even in the former communist states toward freer political institutions and future American economic choices especially the need to reduce the budget deficit still hold the key to preserving and enhancing what considerable power the United States retains
