Textbook of Palliative Nursing Department of Nursing Education and Research, City of Hope National Medical Center, Betty R. Ferrell, Research Scientist, Supportive Care Program, Nessa Coyle, Director, Pain & Palliative Service, Department of Neurology, Memorial Sloan-Kettering Cancer Center, 2005-11-10. Originally published in 2001, the *Textbook of Palliative Nursing* has become the standard text for the field of hospice and palliative care nursing. In this new edition, the authors and editors have updated each chapter to ensure that the content is evidence-based and current references are included. They also have retained the important focus on case studies throughout the text and practical, clinically relevant tables, figures, and other resources. Like the previous edition, this text has an introductory section of the general principles of palliative care, followed by a comprehensive section on symptom assessment and management encompassing twenty-one different symptoms. Other key sections include psychosocial support and spiritual care, providing a holistic perspective on care of patients facing advanced disease. The text also includes an innovative section on special populations addressing those most in need of palliative care. The textbook is a useful resource for all nurses, with the excellent section on end-of-life care across settings. In this new edition, the pediatric palliative care section has been greatly expanded and includes seven separate chapters on pediatric care. It includes a section on special issues addressing topics such as ethical considerations, nursing research, and public policy perspectives, and concludes with a section presenting models of excellence, including six international models. This edition also offers a narrative on dying based on a spouse's perspective. The text includes an appendix with an extensive list of resources for nurses in the field.
