Controversy And Complexity Canadian Immigration Policy During The 1980s:

Research Handbook on the Law and Politics of Migration Catherine Dauvergne, 2021-04-30 As the law and politics of migration become increasingly intertwined this thought provoking Research Handbook addresses the challenge of analysing their growing relationship Discussing the evolving theoretical approaches to migration it explores the growing attention given to the legal frameworks for migration and the expansion of regulation as migration moves to the centre of the political global agenda The Research Handbook demonstrates that the overlap between law and politics puts the rule of law at risk in matters of migration *Responding to Immigrants' Settlement Needs: The Canadian Experience* Robert

Vineberg, 2011-11-09 While much has been written about Canada's modern settlement program and there is a growing body of research and analysis of the settlement and integration successes and challenges of recent years there is virtually no literature that has addressed the history of settlement services since the beginning of immigration to Canada Some survey histories of Canadian Immigration have touched on elements of settlement policy but no history of services to immigrants in Canada has been published heretofore *Responding to Immigrants Settlement Needs The Canadian Experience* addresses this gap in the historiography of Canadian Immigration From the tentative steps taken by the pre Confederation colonies to provide for the needs of arriving immigrants often sick and destitute through the provision of accommodation and free land to settlers of a century ago to today's multi faceted settlement program this book traces a fascinating history that provides an important context to today's policies and practices It also serves to remind us that those who preceded us did indeed care for immigrants and did much to make them feel welcome in Canada The Canadian experience in integration over the past two centuries suggests many policy related research themes for further exploration both in Canada and in other immigrant receiving countries **Diversity and Aging Among Immigrant Seniors in Canada** Douglas Durst, Michael

MacLean, 2010-01-01 Historically Canada has been a nation of immigrants with 16 20% of its citizens being foreign born Most immigrant research addresses the issues of integration and adjustment of young and adult immigrants with little work on aging There are numerous books on immigrants and books on aging but there are few that have considered the topics of both diversity and aging *Diversity and Aging among Immigrant Seniors in Canada* breaks from that tradition and offers an eclectic collection of original research from among Canada's leading researchers on aging and immigrants Some researchers refer to this emerging field as Ethno gerontology There are two interesting groups of immigrant seniors those who entered Canada at over 65 years of age and those who aged in Canada Most Canadians are surprised to learn that the senior population of seniors has a higher percentage of immigrants 19 6% than the general population 13 7% As Canadians age the country's composition of immigrant seniors has also changed from mainly European to greater cultural and ethnic diversity from Africa and Asia This cultural and ethnic diversity has social health economic policy implications and impacts on programs and services delivered to seniors *Diversity and Aging among Immigrant Seniors in Canada* is divided into two main

sections In Part 1 the chapters explore general and universal issues such as national trends and demographics theoretical orientations issues of culture and legal dimensions poverty and income and end of life care In Part 2 the chapters examine issues pertaining to specific ethnic groups For example there are chapters on the social well being of Chinese immigrants determinants of mental health for Iranian seniors family dynamics for aging Haitian elders and emerging issues for Punjabi families Diversity and Aging among Immigrant Seniors in Canada offers both breadth and depth to the topic of aging among immigrants and is a must read for social work and health care professionals students in health and social services policy and program planners and families of aging immigrants It is written in a language that crosses disciplines shedding professional jargon making it an informative and engaging read for professionals researchers and the general public *Migration Governance in North America* Kiran Banerjee, Craig Damian Smith, 2024-04-15 Millions of people arrive in North America each year including highly skilled immigrants and temporary workers refugees and international students Migration border control and asylum are ongoing flashpoints in Canadian American and Mexican relations and deeply affect the domestic politics and economies of each country While migration has emerged as an only increasingly charged topic in public discourse research has largely focused on North America's lack of regional integration around mobility often neglecting aspects of regional cooperation hierarchy and global engagement *Migration Governance in North America* advances that conversation by examining the complex dynamics of mobilities across the continent through contemporary analysis and historical context Situating North America within the global migration landscape contributors from Canada the United States Mexico and Europe unpack such issues as temporary labour mobility border security asylum governance refugee resettlement and the role of local actors and activists in coping with changing policies and politics In the wake of a series of significant and likely enduring changes across the continent this flagship volume puts policy developments and migrant organizing in conversation across borders investigates often contentious domestic regional and global migration politics and reveals how intersecting policy frameworks affect the movement of people *Judging Refugees* Anthea Vogl, 2024-03-28 Reveals the impossible demands for narrative placed on refugee applicants and their oral testimony within state processes for refugee status determination **Crossing Law's Border** Shauna Labman, 2019-11-01 The UN Refugee Agency considers resettlement the selection and transfer of refugees from the state where they seek asylum to another state that volunteers to take them a tool of refugee protection and an expression of international burden sharing In this account of Canada's resettlement program from the Indochinese crisis of the 1970s to the Syrian crisis of the 2010s Shauna Labman explores how rights responsibilities and obligations intersect in the absence of a legal scheme for refugee resettlement In particular she examines the role of the law on the voluntary act of resettlement and the effect of resettlement on asylum policies This pathbreaking book looks at the interplay between resettlement and asylum in one of the world's most successful refugee protection programs and shows how resettlement can either complement or complicate in country asylum claims at a time

when refugee crises and fear of outsiders are causing countries to close their borders to asylum seekers around the world

Controversy and Complexity Gerald E. Dirks, 1995-01-18 After describing the context that prompted the changes enacted in the 1976 Immigration Act Dirks turns to contemporary immigration he examines such controversial and complex issues as establishing annual arrivals targets setting and managing refugee policy and developing regulatory procedures for handling applicants Costs and benefits of a universal visa policy the distinction between refugees and immigrants the role of the provinces and the relationship between immigration and demographic issues are considered in depth Dirks also pays particular attention to the structure of the organization Bringing his study into this decade he concludes by focusing on 1993 amendments to the Immigration Act Throughout Dirks demonstrates that economic factors while playing a major role in immigration policy have not always been the most important consideration He argues convincingly that social and political factors as well as structural organizational and bureaucratic considerations have had a pivotal impact on both the content and the implementation of policy

Migrants and the Courts Mr Geoffrey Care, 2013-12-28 Written in a lively and engaging style from the perspective of a leading immigration judge this book examines how states resolve disputes with migrants The chapters reflect on changes in the laws and rules of migration on an international and regional basis and the impact on the parties administration public and judiciary The book is a critical assessment of how the migration tribunal system has evolved over the last century the lessons which have been learnt and those which have not It includes additional comparative contributions by authors on international jurisdictions and is a valuable overview of the evolution and future of the immigration tribunal system which will be of interest to those involved in human rights migration transnational and international law
