State, Society and Information Technology in Asia Dr Alan Chong Chia Siong,Dr Faizal Bin Yahya,2015-01-28 Calling attention to the unique social and political uses being made of IT in Asia in the service of offline and online causes predominantly filtered by pre existing social milieus the contributors examine the multiple dimensions of Asian differences in the sociology and politics of IT and show how present trends suggest that advanced electronic media will not necessarily be embraced in a smooth unilinear fashion throughout Asia This book will appeal to any reader interested in the nexus between society and IT in Asia

De-convergence of Global Media Industries Dal Yong Jin,2013 Convergence has become a buzzword referring on the one hand to the integration between computers television and mobile devices or between print broadcast and online media and on the other hand the ownership of multiple content or distribution channels in media and communications Yet while convergence among communications companies has been the major trend in the neoliberal era the splintering of companies de convergence is now gaining momentum in the communications market As the first comprehensive attempt to analyze the wave of de convergence of the global media system in the context of globalization this book makes sense of those transitions by looking at global trends and how global media firms have changed and developed their business paradigm from convergence to de convergence Jin traces the complex relationship between media industries culture and globalization by exploring it in a transitional yet contextually grounded framework employing a political economic analysis integrating empirical data analysis

Convergence Thomas F. Baldwin,D. Stevens McVoy,Charles W. Steinfield,1996-04-12 Convergence offers the reader an insightful guide to the digital transformation of the communication landscape Elegantly written the text clearly articulates how the telecommunications landscape has undergone a metamorphosis in the age of digital technology Broadband communications compression and

network integration are key concepts in this groundbreaking book. Students, scholars, communication professionals and policymakers will find this book an invaluable resource for understanding the nature and consequences of the new information infrastructure. John V Pavlik, Director, School of Communication, San Diego State University. Convergence is the central symbol of communication for the future where broadcasting, cable and telecommunications services band together to form the new media world of the future. Convergence: Integrating Media Information Communication is the first book to provide a comprehensive analysis of the conditions that have led to the convergence of the media and communication industries. The authors explore the remaining obstacles to convergence and the consequences of convergence for society, the individual and businesses involved. This timely volume examines the impact of convergence on interactive information and entertainment services and their management and marketing, economic and public policy concerns and the effects of multinational development and hackers linking them to the changes we experience in our culture and daily existence. Convergence: Integrating Media Information Communication is a multifaceted analysis that will be of great interest to those interested in future media developments and their impact. This informative book can be used as a primary text in courses in communication technology, mass communication, telecommunication, organizational communication and international communication.

Media Convergence and Deconvergence Sergio Sparviero, Corinna Peil, Gabriele Balbi, 2017-10-20. This edited volume explores different meanings of media convergence and deconvergence and reconsiders them in critical and innovative ways. Its parts provide together a broad picture of opposing trends and tensions in media convergence by underlining the relevance of this powerful idea and emphasizing the misconceptions that it has generated. Sergio Sparviero, Corinna Peil, Gabriele Balbi and the other authors look into practices and realities of users in convergent media environments, ambiguities in the production and distribution of content, changes to the organization of media industries, the reconfiguration of media markets and the influence of policy and regulations. Primarily addressed to scholars and students in different fields of media and communication studies, Media Convergence and Deconvergence deconstructs taken-for-granted concepts and provides alternative and fresh analyses on one of the most popular topics in contemporary media culture.
