Conversations With Economists New Classical Economists And Opponents Speak Out:

Conversations with Economists Arjo Klammer, 1984 A collection of interviews with 11 of the nation's leading economic theorists providing an introduction to current issues in economic theory and to the ways in which economists think

Disentangling the philosophy of economics Mariusz Maziarz, 2018 *Why Economists Disagree* David L. Prychitko, 1998-01-01 Provides a convenient introduction to heterodox alternatives to neoclassical economics **Economic Thought Since Keynes** Michel Beaud, Gilles Dostaler, 2005-09-27 Economic Thought Since Keynes provides a concise overview of changing economic thought in the latter part of the twentieth century Offering a concise biography of 150 influential economists since Keynes it is an invaluable reference tool *Keynes, Chicago and Friedman, Volume 2* Robert Leeson, Milton Friedman, 2024-11-15 These two volumes present essays on the subdiscipline of Chicago Monetarism in economics Some of the issues under dispute can be regarded as resolved while others are still being debated The contributors include Friedman Patinkin Harry Johnson and James Tobin **The Rhetoric of Economics** Deirdre N.

McCloskey, 1998-05-15 A classic in its field this pathbreaking book humanized the scientific rhetoric of economics to reveal its literary soul Economics needs to admit that it like other sciences works with metaphors and stories Its most mathematical and statistical moments are properly dominated by comparison and narration that is to say human persuasion The book was McCloskey's opening move in the development of a humanomics and unification of the sciences and the humanities on the field of ordinary business life *New Ideas from Dead Economists* Todd G. Buchholz, 1990 Examines the theories of famous economists throughout history reinterpreting the ideas of Adam Smith Karl Marx Maynard Keynes and others in light of contemporary economic conditions *Literatura econômica*, 1985 Abstracts articles from Brazilian economic periodicals and provides tables of contents for various other international periodicals **Age of Fracture** Daniel T. Rodgers, 2012-09-03 In the last quarter of the twentieth century the ideas that most Americans lived by started to fragment Mid century concepts of national consensus managed markets gender and racial identities citizen obligation and historical memory became more fluid Flexible markets pushed aside Keynesian macroeconomic structures Racial and gender solidarity divided into multiple identities community responsibility shrank to smaller circles In this wide ranging narrative Daniel Rodgers shows how the collective purposes and meanings that had framed social debate became unhinged and uncertain Age of Fracture offers a powerful reinterpretation of the ways in which the decades surrounding the 1980s changed America Through a contagion of visions and metaphors on both the intellectual right and the intellectual left earlier notions of history and society that stressed solidity collective institutions and social circumstances gave way to a more individualized human nature that emphasized choice agency performance and desire On a broad canvas that includes Michel Foucault Ronald Reagan Judith Butler Charles Murray Jeffrey Sachs and many more Rodgers explains how structures of power came to seem less important than market choice and fluid selves Cutting across the social and political arenas of late twentieth century life and thought

from economic theory and the culture wars to disputes over poverty color blindness and sisterhood Rodgers reveals how our categories of social reality have been fractured and destabilized As we survey the intellectual wreckage of this war of ideas we better understand the emergence of our present age of uncertainty
