Conversations With Madeleine Milhaud:

Conversations with Madeleine Milhaud Madeleine Milhaud, Roger Nichols, 1996 In Milhaud's own autobiography *My Happy Life* the references to Madeleine were tender but few In these conversations she views the same life of interest and contentment from the distaff side Madeleine knew Milhaud from her childhood they were cousins and she was at his side through most of his adventures triumphs and traumas including the agonising bouts of arthritis from which Milhaud suffered Madeleine herself had a successful career as an actress and reciter and in these conversations with Roger Nichols she reveals herself as a highly spirited and determined woman in her own right **Sounds of War** Annegret Fauser, 2013-05-03 Classical music in 1940s America had a cultural relevance and ubiquitousness that is hard to imagine today and it played an important role as a cultural counterpoint to the military effort as musicians and politicians were in Henry Cowell's words shaping music for total war No other war mobilized and instrumentalized culture in general and music in particular so totally so consciously and so unequivocally as World War II Through author Annegret Fauser's in depth engaging and encompassing discussion in context of this unique period in American history *Sounds of War* brings to life the people and institutions that created performed and listened to this music Music in Paris 1917-1929 Roger Nichols, 2002 *The Harlequin Years* presents a highly readable yet thorough examination of the Parisian music scene in the decade following World War I Through Nichols's lively prose and in his accounts of institutional politics reception histories and behind the scenes debates these places and personalities spring to life Susan McClary author of *Conventional Wisdom* **French Music and Jazz in Conversation** Deborah Mawer, 2014-12-04 This book explores the historical cultural interactions between French concert music and American jazz across 1900-65 from both perspectives *Darius Milhaud* Deborah Mawer, 1997 An analytical study of music by an innovative French composer of the 1920s Concentrates on interpretation of pitch structure with eight detailed case studies emphasizing extended voice leading motive analysis and set theory and discusses the musical and historical contexts of his works especially their relationship to the music of Stravinsky Case studies are grouped in sections on chromaticism Brazilian and jazz inspired music and neoclassicism with other chapters on elements of his music and stylistic and aesthetic perspectives Includes many music examples Distributed by Ashgate Annotation copyrighted by Book News Inc Portland OR **The Composer and Dance Collaboration in the Twentieth Century** Sandra Sedman Yang, 1997 La Musique Pour Tout Le Monde Denise Pilmer Taylor, 1998 Reader's Guide to Music Murray Steib, 2013-12-02 *The Reader's Guide to Music* is designed to provide a useful single volume guide to the ever increasing number of English language book length studies in music Each entry consists of a bibliography of some 3-20 titles and an essay in which these titles are evaluated by an expert in the field in light of the history of writing and scholarship on the given topic The more than 500 entries include not just writings on major composers in music history but also the genres in which they worked from early chant to rock and roll and topics important to the various disciplines of music scholarship from aesthetics to gay/lesbian musicology

Radice, 2003 Concert Music of the Twentieth Century is about concert music music for contemplation rather than for atmosphere The repertoire discussed in these pages was written by composers with something important to say and with skills to do so Many of the works discussed tie in with a long standing Western European tradition of art music but an equal voice is given to culturally and ethnically diverse composers active during the past several decades Radice provides data about the pieces the composers who wrote them and the contexts in which they originated Our understanding and evaluation of music is a dynamic process and one that is subject to change Music only has meaning within its social contexts and these are expanding daily Many non Western nations have long standing musical traditions and practices that have entered into the Western mainstream just as Western practices and traditions have influenced the musical cultures of the world to produce new and exciting possibilities for music making Diversity has been a key element in the selection of topics for discussion and the examples included here can serve as gateways for other investigations by interested readers This book is a survey presenting a broad array of representative works The personalities explored include composers performers theorists teachers and organizations In many cases the information comes directly from composers whom the author has interviewed The discussions in this book demonstrate that the world of contemporary music is a fascinating one that offers rich rewards to those interested in understanding the vibrant dynamics of concert music [Gramophone](#) , 1996 [Book Review Index](#) , 2003 Vols 8 10 of the 1965 1984 master cumulation constitute a title index **Massine** Vicente García-Márquez, 1995 For twenty five years after his Paris debut in 1914 Leonide Massine 1895 1979 was indisputably the premier male dancer and chief choreographer of Europe Now just as revivals of his ballets are reconfirming his status historian Vicente Garcia Marquez gives us a well rounded definitive biography that places Massine firmly in the mainstream of twentieth century cultural history Onstage he was widely praised for indelible performances in roles he created for himself Joseph in The Legend of Joseph the Miller in Le Tricorne and the Chinese Conjuror in Parade are only a few and as the choreographer of other perennial repertoire favorites such as Le Beau Danube Gaite parisienne Scuola di ballo In the 1930s his choreography took an innovative and controversial turn with the creation of Les Presages Choreartium both recently revived in France and America and Symphonie fantastique ballets whose grandiose combination of symphonic music metaphysical scenarios and spectacularly complex movement patterns and configurations polarized the critics and the public Massine s collaborations with the major creative spirits of our time including Diaghilev Stravinsky Falla Cocteau Picasso Matisse Miro and Dali were integral to his life and art and each of these giants has a role in this book So too does Michael Powell the British filmmaker who fortunately for us recorded some of Massine s most brilliant characterizations in The Red Shoes and The Tales of Hoffmann **BOOK JACKET** Title Summary field
