This book explores the tensions and dilemmas marketisation brings into the educational environment for academic leaders, managers and students, arguing that they can be managed through rebalancing the relation between the market and the educational dimensions. Key topics include: The economics of higher education, Students in a marketised environment, Regulating a marketised sector, Marketisation and higher education pedagogies, Universities futures, Unveiling nuanced and multifaceted perspectives and providing readers with collective and forward thinking critical analyses. Dimensions of Marketisation in Higher Education will be an authoritative reference book on policy and practice appealing to higher education leaders, managers and scholars worldwide.
