Prompt Engineering for Generative AI James Phoenix, Mike Taylor, 2024-05-16 Large language models LLMs and diffusion models such as ChatGPT and Stable Diffusion have unprecedented potential Because they have been trained on all the public text and images on the internet they can make useful contributions to a wide variety of tasks And with the barrier to entry greatly reduced today practically any developer can harness LLMs and diffusion models to tackle problems previously unsuitable for automation With this book you ll gain a solid foundation in generative AI including how to apply these models in practice When first integrating LLMs and diffusion models into their workflows most developers struggle to coax reliable enough results from them to use in automated systems Authors James Phoenix and Mike Taylor show you how a set of principles called prompt engineering can enable you to work effectively with AI Learn how to empower AI to work for you This book explains The structure of the interaction chain of your program s AI model and the fine grained steps in between How AI model requests arise from transforming the application problem into a document completion problem in the model training domain The influence of LLM and diffusion model architecture and how to best interact with it How these principles apply in practice in the domains of natural language processing text and image generation and code Artificial Intelligence and the Future of Journalism Dr. Fangni Li, 2025-07-15 This book is essential reading for journalists editors media professionals journalism educators and students who want to understand how artificial intelligence is reshaping the news industry With in depth chapters on AI driven news production changing newsroom workflows and evolving journalistic ethics it provides practical and critical insights for anyone navigating today s digital media environment Researchers and policymakers interested in media regulation global AI practices and governance will find valuable case studies and comparative perspectives Educators designing future ready journalism curricula and students preparing for careers in media will benefit from its coverage of algorithmic literacy and AI assisted storytelling Additionally tech developers content creators and podcasters exploring AI powered tools for content generation will gain actionable knowledge from the hands on chapters Whether you are concerned about the ethical implications of generative models or excited about AI s potential to innovate storytelling this book equips readers to understand critique and collaborate with emerging media technologies *Optimal Physical Activity across the Lifespan for People of All Abilities* Ronald F. Zernicke , David Arthur Hart, Humans evolved to be mobile within the boundary conditions of Earth and many biological and physiologic systems depend on mechanical loading to maintain integrity during growth and maturation during skeletal maturity and during the aging process These systems subscribe to the use it or lose it principle and thus require continual use to maintain integrity Given that premise considerable basic and clinical research efforts have been directed at optimizing the effectiveness and positive impact of

exercise on sports performance and the well being of those with intact systems However those with disabilities or compromised abilities also benefit from exercise protocols and there exists a need to focus attention on these populations as well Given the myriad of biological and physiological systems that benefit from exercise and mechanical loading there is a need for all humans of varying abilities to not only maintain the integrity of their health but to attempt to optimize it recognizing that optimizing each person s health across the stages of the life cycle may require different exercise protocols dependent on stage of life sex genetics and other individualized variables For those with physical disabilities embracing and maintaining such exercise protocols may be challenging but expanded research translation of findings and integration of the outcomes into everyday life to enhance the health and well being of this significant population are needed going forward
