## **Controlling Hollywood Censorship And Regulation In The Studio Era:**

**Controlling Hollywood** Matthew Bernstein, 2000-01-01 Explaining the major forces at play behind the making of Hollywood films this text assesses how changing values have influenced censorship in Hollywood The text also analyses the major cultural social legal and religious changes and their effect on Hollywood *Hollywood's Last Golden Age* Jonathan Kirshner, 2012-10-05 Between 1967 and 1976 a number of extraordinary factors converged to produce an uncommonly adventurous era in the history of American film The end of censorship the decline of the studio system economic changes in the industry and demographic shifts among audiences filmmakers and critics created an unprecedented opportunity for a new type of Hollywood movie one that Jonathan Kirshner identifies as the seventies film In Hollywood's Last Golden Age Kirshner shows the ways in which key films from this period including Chinatown Five Easy Pieces The Graduate and Nashville as well as underappreciated films such as The Friends of Eddie Coyle Kluge and Night Moves were important works of art in continuous dialogue with the political social personal and philosophical issues of their times These seventies films reflected the era's social and political upheavals the civil rights movement the domestic consequences of the Vietnam war the sexual revolution women's liberation the end of the long postwar economic boom the Shakespearean saga of the Nixon Administration and Watergate Hollywood films in this brief exceptional moment embraced a new aesthetic and a new approach to storytelling creating self consciously gritty character driven explorations of moral and narrative ambiguity Although the rise of the blockbuster in the second half of the 1970s largely ended Hollywood's embrace of more challenging films Kirshner argues that seventies filmmakers showed that it was possible to combine commercial entertainment with serious explorations of politics society and characters interior lives **Nordisk Films Kompagni 1906-1924** Isak Thorsen, 2017-10-01 This comprehensive study of the Danish film company demonstrates how it became one of the most important innovators of the silent era Established in 1906 Nordisk Films Kompagni's rise and fall is one of the most dramatic stories of the early film industry Based on archival research primarily in the company's surviving business archives this volume describes and analyzes how Nordisk Films became one of the leading players in the world market and why the company failed to maintain this position Isak Thorsen examines Nordisk Film as a business and organization from its establishment in 1906 until 1924 when founder Ole Olsen stepped back He covers a wide range of topics including the competitive advantages Nordisk Film gained in reorganizing the production to multiple reel films around 1910 the company's highly efficient film production which anticipated the departmentalized organization of Hollywood Nordisk Film's aggressive expansion strategy in Germany Central Europe and Russia during the First World War and the grand plans for taking control of UFA in association with the American Famous Players in the post war years **J. Edgar Hoover Goes to the Movies** John Sbardellati, 2012-05-15 Between 1942 and 1958 J Edgar Hoover's Federal Bureau of Investigation conducted a sweeping and sustained investigation of the motion picture industry to expose Hollywood's alleged subversion of the American Way

through its depiction of social problems class differences and alternative political ideologies FBI informants their names still redacted today reported to Hoover s G men on screenplays and screenings of such films as Frank Capra s It s a Wonderful Life 1946 noting that this picture deliberately maligned the upper class attempting to show that people who had money were mean and despicable characters The FBI s anxiety over this film was not unique it extended to a wide range of popular and critical successes including The Grapes of Wrath 1940 The Best Years of Our Lives 1946 Crossfire 1947 and On the Waterfront 1954 In J Edgar Hoover Goes to the Movies John Sbardellati provides a new consideration of Hollywood s history and the post World War II Red Scare In addition to governmental intrusion into the creative process he details the efforts of left wing filmmakers to use the medium to bring social problems to light and the campaigns of their colleagues on the political right through such organizations as the Motion Picture Alliance for the Preservation of American Ideals to prevent dissemination of un American ideas and beliefs Sbardellati argues that the attack on Hollywood drew its motivation from a sincerely held fear that film content endangered national security by fostering a culture that would be at best apathetic to the Cold War struggle or at its worst conducive to communism at home Those who took part in Hollywood s Cold War struggle whether on the left or right shared one common trait a belief that the movies could serve as engines for social change This strongly held assumption explains why the stakes were so high and ultimately why Hollywood became one of the most important ideological battlegrounds of the Cold War

Analysing the Screenplay Jill Nelmes,2010-10-04 Analysing the Screenplay highlights the screenplay as an important form in itself as opposed to merely being the first stage of the production process

The Fictional Female Presidency in Film, Television, and Literature Kathleen W. Taylor Kollman,2025-11-13 This book examines the ways in which popular culture has entertained the notion of a female U S presidency through portrayals in film television and literature dating back to the 1930s To date no woman has served as Commander in Chief in the White House This lack of precedent however has not deterred the continued exploration of this idea in U S popular culture for decades In this book Kathleen W Taylor Kollman analyzes fictionalized portrayals of female U S Presidents across a variety of media spanning both genre and time period to demonstrate how the perceptions of audiences and content creators have shifted when considering the idea of a woman s ability to run the United States She then contextualizes each example by positioning it alongside real life women in politics to examine the accuracy of existing portrayals when compared to the media framing of aspiring political candidates By analyzing works diverse in genre including science fiction dystopias slapstick comedias political dramas satire and romance novels Kollman also explores the ways in which genre can also play a critical factor in the framing of these women with regard to both subject matter and approach Scholars interested in parasocial relationships the history of feminist movements the intersection of political and media audiences and popular media trends will find this book particularly compelling

**Crime in TV, the News, and Film** Beth E. Adubato,Nicole M. Sachs,Donald F. Fizzinoglia,John M. Swiderski,2022-05-20 Crime in TV the News and Film

provides a fresh look at the interplay between criminal events and the media outlets that cover them. The authors' diverse backgrounds—a criminologist, a researcher, a documentarian, and a media professor—a police officer and a criminologist who is a former TV reporter—allow for frank discussion. Combining field experience with criminological research, the book gives insight into the everyday media operations that can produce most people's views on crime and profoundly influence public opinion. Public opinion that often frames public policy. Viewers of crime dramas and consumers of news will gain a new understanding of the way their programs are produced. Readers will become more aware of the issues and biases that sometimes cloud perceptions of crime and criminals. Finally, both experts and scholars interested in the subject will improve their discernment of media stories and media depictions, shining a light on crime in a hazy field. *Violence and American Cinema* J. David Slocum, 2013-09-13 American cinema has always been violent and never more so than now: exploding heads, buses that blow up if they stop racial attacks, and general mayhem. From slapstick's comic violence to film noir, from silent cinema to Tarantino, violence has been an integral part of America on screen. This new volume in a successful series analyzes violence, examining its nature, its effects, and its cinematic and social meaning.

**“The American public wants its movies passionate but pure”. The Question of Morality in American Film Censorship of the 1920s** Amelie Meyer, 2020-04-07 Seminar paper from the year 2012 in the subject History America grade 1.0 University of Göttingen Seminar für Mittlere und Neuere Geschichte course The Roaring Twenties Die Massenkultur der 1920er Jahre in transatlantischer Perspektive language English abstract For as long as there have been moving pictures, there have also been attempts to regulate their content. The first court case surrounding moving pictures has been recorded as early as 1897, and many more were to follow. While film was thus always subjected to scrutiny from various groups, the 1920s saw a more fervent battle for control over censorship, which resulted in the formation of the 1930 Production Code, remaining in effect until 1968. Lee Grieveson's study *Policing Cinema: Movies and Censorship in Early Twentieth Century America* comprehensively describes long-lasting battles over movie content regulation and the discussion of the function of cinema. Yet he is among many scholars who sees the 1915 Supreme Court decision in the case *Mutual Film Corporation v. Industrial Commission of Ohio* as the culmination of these struggles, as it proved the validity of state censorship. Justice McKenna is quoted ruling that the exhibition of moving pictures is a business, pure and simple, originated and conducted for profit, like other spectacles, not to be regarded as part of the press of the country or as organs of the public opinion. This ruling was not only significant for the increased state and city censorship which followed, but it also fueled censorship demands by various parties, including religious groups, social reformers, politicians, and journalists, who all called for the elusive concept of morality. The road from this first ruling, which titled the film industry as a business to be regulated towards a formal censorship with the aim of restoring morality, manifested in the so-called Production Code in 1934, will be the focus of this paper. The first part will consist of an analysis of

the various parties involved in the attempt to regulate movie content in order to expose the individual motives behind their requests as well as their practices to reach their goal of censorship The following part will then deal with the question of how well the reformers were able to realize their goal of censoring the movies during the first years of the 1920s The questions posed above will mainly be studied on the basis of guiding works written by Gregory D Black Francis G Couvares Stephen Vaughn Lee Grieveson and Leonard J Leff Analyzed sources will include newspaper articles state review board standards studies on audience behavior and an original text written by a direct participant of the 1920 censorship struggle MPPDA president William Hays
