Controlling Sex Elizabeth Bernstein, Laurie Schaffner, 2004 *Regulating Sex* Elizabeth Bernstein, Laurie Schaffner, 2005-01-05 *Regulating Sex* is an anthology that presents debates over the role of the state in constructing and controlling erotic practice intimacy and identity The purpose of this edited volume is to address sexual dilemmas in law and the state in substantive areas such as same sex domestic partnerships sexual economies and childhood sexuality via a series of spirited dialogues between socio legal scholars from diverse disciplinary national and political perspectives **Gender Politics in the Expanding European Union** Silke Roth, 2008 In May 2004 after bringing their legislation into accordance with EU regulations ten more countries joined the European Union The contributors to this volume assess the impact of this historical development on gender relations in the new and old EU member states Instead of focusing on either western or eastern Europe this book investigates the similarities and differences in diverse parts of Europe Although initially limited gender equality was part of the original framework of the European Union an organization often more open than national governments to feminist demands as this volume illustrates with case studies from eastern and western Europe The enlargement process thus provides some important policy instruments for increasing equality between men and women

music's role as a resource in making and performing identities and music scholarship's ambivalent relationship with scholarly activism and identity politics. The essays approach the music identity relationship from a wide range of methodological perspectives ranging from critical historiography and archival studies, psychoanalysis, gender and sexuality studies to ethnography and anthropology and social and cultural theories drawn from sociology and from continental philosophy and Marxist theories of class to a range of globalization theories. The collection draws on the work of Anglophone scholars from all over the globe and deals with a wide range of musics and cultures from the Americas, Australasia, Europe, the Middle East and Africa. This unique collection of key texts which deal not just with questions of gender, sexuality and race but also with other socially mediated identities such as social class, disability, national identity and accounts and analyses of inter group encounters is an invaluable resource for music scholars and researchers and those working in any discipline that deals with identity or identity politics.

Identity Politics on the Israeli Screen Yosefa Loshitzky, 2010-01-01. 2002 A Choice Outstanding Academic Book. The struggle to forge a collective national identity at the expense of competing plural identities has preoccupied Israeli society since the founding of the state of Israel. In this book Yosefa Loshitzky explores how major Israeli films of the 1980s and 1990s have contributed significantly to the process of identity formation by reflecting, projecting and constructing debates around Israeli national identity.

Loshitzky focuses on three major foundational sites of the struggle over Israeli identity: the Holocaust, the question of the Orient and the so-called in an ironic historical twist of the Jewish question, Palestinian question. The films she discusses raise fundamental questions about the identity of Jewish Holocaust survivors and their children, the second generation Jewish immigrants from Muslim countries or Mizrahim, particularly the second generation of Israeli Mizrahim and Palestinians. Recognizing that victimhood marks all the identities represented in the films under discussion, Loshitzky does not treat each identity group as a separate and coherent entity but rather attempts to see the conflation, interplay and conflict among them.

Archer,1994-02-14 Do adolescents have a critical period of identity development How much identity activity is needed in each of the life domains such as career family and ideology for healthy adolescent development An interdisciplinary team of scholars and practitioners addresses these and related questions to examine what we know about adolescent identity formation and how this information can be effectively used to intervene with adolescents to provide them with better guidance about their life choices Performing Queer: Shaping sexualities, 1994-2004 Mikki Van Zyl,Melissa E. Steyn,2005 This volume explores the social constructions of sexuality in South Africa as articulated in the tensions between margin and mainstream during the transition to democracy The nuances between how people experience their own sexuality how that sexuality differs over time and how they speak about it are discussed in the context of the homosexual communities of South Africa Using the hierarchy of heteronormativity this work argues that centralized constructions of sexuality are generally taken for granted and tend to gain invisibility through their pervasiveness while marginalized social positions are often visibly pathologized **Abstracts in Anthropology** ,1988
