Conversations of Miguel and Maria Linda Ventriglia,1979 Conversations of Miguel and Maria Linda Ventriglia,1982 *Conversation with Spinoza* Goce Smilevski,2006-05-12 Prizing ideas above all else radical thinker Baruch Spinoza left little behind in the way of personal facts and furnishings But what of the tug of necessity the urgings of the flesh to which this genius philosopher and grinder of lenses might have been no more immune than the next man or the next character as Baruch Spinoza becomes in this intriguing novel by the remarkable young Macedonian author Goce Smilevski Smilevski s novel brings the thinker Spinoza and his inner life into conversation with the outer all too real facts of his life and his day from his connection to the Jewish community of Amsterdam his excommunication in 1656 and the emergence of his philosophical system to his troubling feelings for his fourteen year old Latin teacher Clara Maria van den Enden and later his disciple Johannes Casearius From this conversation there emerges a compelling and complex portrait of the life of an idea and of a man who tries to live that idea Portuguese Conversation-grammar Luise Ey,1912 Landor's Imaginary Conversations ; Landor's Poems, Dialogues in Verse, and Epigrams ; Landor's Longer Prose Works Walter Savage Landor,1891 Imaginary Conversations Landor,1891 *The Conversation* Angelo E. Volandes,Angelo Volandes, M.D., M.D.,2015-01-13 There is an unspoken dark side of American medicine keeping patients alive at all costs Two thirds of Americans die in healthcare institutions tethered to machines and tubes even though research indicates that most prefer to die at home in comfort surrounded by loved ones The question How do you want to live must be posed to the seriously ill because they deserve to choose If doctors explain options including the choice to forego countless medical interventions that are often of little benefit then patients can tell doctors how they wish to spend the remainder of their lives A doctor s heroic efforts to prolong a life can instead prolong that patient s death and these traumatic measures also bankrupt the healthcare system One third of the Medicare budget is spent on the last six months of life often on technological interventions that are not helpful and inflict more suffering Through the stories of six patients and six very different end of life experiences Volandes explores the trajectory of events and treatments that occur with and without this essential conversation He argues for a radical re envisioning of the patient doctor relationship including videos to spark discussions and offers ways for patients and their families to talk about this difficult issue to ensure that patients will be at the center and in charge of their medical care Provided by publisher Communicative Competence Sandra J.
