The Anti-enlightenment Tradition Zeev Sternhell, 2010-01-01 In this masterful work of historical scholarship Zeev Sternhell an internationally renowned Israeli political scientist and historian presents a controversial new view of the fall of democracy and the rise of radical nationalism in the twentieth century Sternhell locates their origins in the eighteenth century with the advent of the Anti Enlightenment far earlier than most historians The thinkers belonging to the Anti Enlightenment a movement originally identified by Friederich Nietzsche represent a perspective that is antirational and that rejects the principles of natural law and the rights of man Sternhell asserts that the Anti Enlightenment was a development separate from the Enlightenment and sees the two traditions as evolving parallel to one another over time He contends that J G Herder and Edmund Burke are among the real founders of the Anti Enlightenment and shows how that school undermined the very foundations of modern liberalism finally contributing to the development of fascism that culminated in the European catastrophes of the twentieth century Isaiah Berlin Michael Ignatieff, 1999-10-15 Now in paperback the landmark
