Stauffer, 1992 **Proceedings of the Fourth Workshop on Enabling Technologies: Infrastructure for Collaborative Enterprises**, 1995 More consensus seemed apparent than in previous conferences on the direction of collaborative technical research possibly because of the benefits of shared knowledge demonstrated by and experienced on the World Wide Web Working groups summarize their discussions on tools environments and process *NSF Workshop on Information Capture and Access in Engineering Design Environments*, 1991 Preprints M. innovations of extreme relevance to the industry have been achieved However further research and advanced development clearly continues to be needed because the European information technology has far from reached the level of competitiveness required to acquire a greater international market share It is hoped this publication will play an important role in this movement forwards
