 of New Media on film and television What kinds of transformations of moving image media are really already under way The
 term new media has become an effective catch word both as a description of the digital delivery of media via the Internet
 DVD and digital television and as a reference to the newness such technologies have brought to media more generally And
 yet the nature of this transformation has been over hyped and too little understood The New Media Book provides an
 accessible critical intervention into the field of moving image studies and features 20 newly commissioned and thought
 provoking essays in a format designed to be of wide use to a range of courses in digital media film and television studies The
 book is divided into five thematic sections Technologies Production Texts Consumption and Contexts and addresses how new
 media is both embracing and altering the existing media landscape Topics discussed include the ways in which we interact
 with digital television the changing methods of production distribution and exhibition within the media industry and how the
 histories of traditional media have influenced the development of new media The New Media Book examines the
 corresponding influences that traditional media and new media are having upon each other as well as revisiting central
 continuing issues surrounding the moving image and the contexts in which all the media operate The collected essays
 present and redefine these crucially important topics providing the most systematic analysis of both change and continuity in
 the contemporary media landscape yet published in the field of screen studies **Science Instruction in the Middle and**
