Hunters' Sourcebook Amy Darga, 2002 Here is the essential updated resource job seekers need to develop a complete strategy for their job searches Alphabetically arranged by career the Sourcebook lists sources of help wanted ads employer directories employment agencies placement services electronic resources and other information sources for 206 specific careers New profiles on high profile careers such as computer and information systems manager desktop publisher and industrial production manager have been added as well Also included are helpful e mail and Web site addresses along with new information on governmental agencies and legal topics to further assist users in their searches Post-Growth Work Irmi Seidl, Angelika Zahrnt, 2021-09-08 This book argues that society must rethink the notion of formal employment and instead introduce and spread the notion of meaningful work so that societies can become independent of economic growth

The excessive consumption of natural resources and the immense emissions resulting from our growth oriented economic system surpass the planetary boundaries Despite this society and the economy still strive for economic growth in order to generate jobs to finance the social security system and to assure tax income However these expectations are increasingly unrealistic not least because technological developments such as digitalisation and robotisation will change and limit formal employment opportunities as well Against this backdrop the book introduces the notion of meaningful activities that embrace various kinds of work paid and unpaid sequential or in parallel which are meaningful for the worker as well as society as a whole At the same time the authors argue in favour of reduced working time in formal employment Furthermore the book also describes the necessary transformations in companies and for consumers for social and tax systems for social services and agriculture Innovative and timely this book will be a key resource for professionals and scholars interested in sustainability economics work transformation and post growth studies **Congressional Record** United States.
