Based on research conducted with over a thousand professionals at all stages of their careers Ethan Bernstein Michael B Horn and Bob Moesta find that this notion bears out no matter your age stage or trajectory Key to this new universal approach is understanding our priorities at the specific moment when we make each move This team has created a process to help individuals identify the current circumstances driving them to look for new opportunities the experiences they hope to gain in a new job what tradeoffs they ll gladly make in return and how to learn before switching if a new job will deliver The result encourages job seekers to look beyond a title or company for a more holistic view and ask not what you can do in a job but what a potential job can do for you Full of useful activities and tools Job Moves offers the timeless framework of our generation to help anyone create a career that will be happier and more fulfilling
