**Detox Your Writing** Pat Thomson, Barbara Kamler, 2016-02-26 There are a number of books which aim to help doctoral researchers write the PhD. This book offers something different: the scholarly detox. This is not a faddish alternative; it's not extreme. It's a moderate approach intended to gently interrupt old ways of doing things and establish new habits and orientations to writing the PhD. The book addresses the problems that most doctoral researchers experience at some time during their candidature: being unclear about their contribution, feeling lost in the literature, feeling like an imposter, not knowing how to write with authority, wanting to edit rather than revise. Each chapter addresses a problem, suggests an alternative framing, and then offers strategies designed to address the real issue. *Detox Your Writing* is intended to be a companionable work book, something doctoral researchers can use throughout their doctorate to ask questions about taken-for-granted ways of writing and reading, and to develop new and effective approaches. The authors' distinctive approach to doctoral writing mobilises the rich traditions of linguistic scholarship as well as the literatures on scholarly identity formation. Building on years of expertise, they place their emphasis both on tools and techniques as well as the discursive practices of becoming a scholar. The authors provide a wide repertoire of strategies that doctoral researchers can select from, rather than a linear, lock-step progression through a set of exercises. The book is a toolkit, but a far from prescriptive one. It shows that there are many routes to developing a personal academic voice and identity, and a well-crafted text. With points for reflection alongside examples from a broad range of disciplines, the book offers thinking tools, writing tools, linguistic tools, and reading tools which are relevant to all stages of doctoral research. This practical text can be used in all university doctoral training and composition and writing courses. However, it is not a dry 'how-to-do-it' manual that ignores

debates or focuses solely on the mechanical at the expense of the lived experience of doctoral research It provides a practical theorised real world guide to postgraduate writing

*Understand Blog Content Writing* Aysegul Balkose,2021-05-17 Story It is about a story the plot and its characters You blog writers are storytellers Here is the twist you are also one of the main characters The blog has an angle for the plot and its perception of the world around it Blog as an entity has an identity the way of thinking and acting It has ideas of its own It is a great help to define these for the blog and yourself as the writer before you start chucking in your best ideas and publishing them Blogs want to be found on Google For this their content should be countered on the Reader Not everyone will use the same words to search To search relevant content they will use Semantic words Your job is to write content which covers these Semantic search The reason I am writing this book is because it would make me feel so happy if I can help people understand the core concepts of blog writing This was a struggle for me when I started writing blogs I believe that knowing a basic working

structure gives people the opportunity to leap forward faster By helping others to decode basic concepts I know I am also helping myself as I embark on another journey of taking responsibility My mission is to make people learn some life changing concepts quicker regardless of where they find themselves in life
