Remember it's not the tech that's tiny just the book *AI in Marketing, Sales and Service* Peter Gentsch, 2018-10-22 AI and Algorithmics have already optimized and automated production and logistics processes. Now it is time to unleash AI on the administrative planning and even creative procedures in marketing sales and management. This book provides an easy to understand guide to assessing the value and potential of AI and Algorithmics. It systematically draws together the technologies and methods of AI with clear business scenarios on an entrepreneurial level. With interviews and case studies from those cutting edge businesses and executives who are already leading the way, this book shows you how customer and market potential can be automatically identified and profiled, how media planning can be intelligently automated and optimized with AI and Big Data, how chat bots and digital assistants can make communication between companies and consumers more efficient and smarter, how you can optimize Customer Journeys based on Algorithmics and AI and how to conduct market research in a more efficient and smarter way. A decade from now all businesses will be AI businesses. Gentsch shows you how to make sure yours makes that transition better than your competitors. *Proceedings of International Conference on Communication and Computational Technologies* Sandeep Kumar, Saroj Hiranwal, S.D. Purohit, Mukesh Prasad, 2023-08-31 This book gathers selected papers presented at 5th International Conference on Communication and Computational Technologies ICCCT 2023 jointly organized by Soft Computing Research Society SCRS and Rajasthan Institute of Engineering Technology RIET Jaipur during January 28-29, 2023. The book is a collection of state of the art research work in the cutting edge technologies related to the communication and intelligent systems. The topics covered are algorithms and applications of intelligent systems, informatics and applications, and communication and control systems.
