GET YOUR COPY TODAY     The Power of Crisis Ian Bremmer,2022-05-17 New York Times Bestseller Renowned political scientist Ian Bremmer draws lessons from global challenges of the past 100 years including the pandemic to show how we can respond to three great crises unfolding over the next decade In this revelatory unnerving and ultimately hopeful book Bremmer details how domestic and international conflicts leave us unprepared for a trio of looming crises global health emergencies transformative climate change and the AI revolution Today Americans cannot reach consensus on any significant political issue and US and Chinese leaders behave as if they re locked in a new Cold War We are squandering opportunities to meet the challenges that will soon confront us all In coming years humanity will face viruses deadlier and more infectious than Covid Intensifying climate change will put tens of millions of refugees in flight and require us to reimagine how we live our daily lives Most dangerous of all new technologies will reshape the geopolitical order disrupting our livelihoods and destabilizing our societies faster than we can grasp and address their implications The good news Some farsighted political leaders business decision makers and individual citizens are already collaborating to tackle all these crises The question that should keep us awake is whether they will work well and quickly enough to limit the fallout and most importantly whether we can use these crises to innovate our way toward a better world Drawing on strategies both time honored and cutting edge from the Marshall Plan to the Green New Deal The Power of Crisis provides a roadmap for surviving even thriving in the 21st century Bremmer shows governments corporations and every concerned citizen how we can use these coming crises to create the worldwide prosperity and opportunity that 20th century globalism promised but failed to deliver     Stars Will Guide You Home - A Second-Chance Love Story Powered by Fate, and an AI App Stuti Changle,2025-05-27 Would you take a second chance at love if an app matches you up As teenagers Kiana and Nirvaan were inseparable until family expectations tore them apart A decade later despite having successful careers their hearts are empty Then AILENA a cutting edge AI dating app matches them with a near perfect compatibility without revealing their true identities As their virtual bond deepens past wounds resurface but love makes its way through their hearts until AILENA deems them incompatible and cuts their connection forever What will they do Trust the app or follow their hearts Can their love survive the test of time and reality Set in India and the US this is a story of love reimaged in the digital age In a world where we are constantly connected yet feel lonely Stars Will Guide You Home is a love story for everyone the ones who overthink the ones who let go too soon and the ones still hoping for a sign     **The Rotarian** ,1926     **The Watchman** ,1888     *Pro App Off XP Powerpt Ai* Hinkle,2001-12     *Monthly Bulletin.
