This volume focuses on the realities in the language industry from the fresh perspective of current and emerging professional profiles and of the contexts and resources that condition and support them. It traces the industry's evolution, maps its current state and considers key aspects of its workplaces, actors and practices. In an age when artificial intelligence is challenging traditionally held views of human performance, it addresses the issue of where and how human agents add value to the industry's processes and products with a detailed research-based consideration of the activities, competences, roles, responsibilities and tools that characterize the language industry of today and the near future. *Tiny Business, Big Money* Elaine Pofeldt, 2022-02-15.
