Leveraging AI for Human-Centered Learning Marlee S. Bunch, Brittany R. Collins, 2025-07-22 Leveraging AI for Human Centered Learning provides intentional approaches to the integration of artificial intelligence tools into middle and high school classrooms specifically to foster equity and social emotional wellbeing The overlap of AI with today s schools poses pivotal questions about ethics morality inclusion and human learning at a time when students are already reckoning with public health crises systemic injustice and other connected challenges This book helps teachers examine the pros and cons of artificial intelligence as used by both educators and students as well as its implications for meaningful culturally responsive teaching and social emotional learning efforts Featuring activities lesson plans and discussion and writing prompts for use with adolescent learners each chapter offers concrete pedagogical approaches and instructional innovations that align technological changes with learning objectives in ways that advance rather than replace or neutralize attention to equity and well being

Decoding Generative AI Farabi Shayor, Kelina Lowther-Harris, Kirthana Srinivasan, Anoushka Samanta, 2024-04-16 The emergence of Generative AI has marked a significant turning point heralding a new age of innovation and intellectual exploration Much like a compelling narrative this advancement in artificial intelligence has captivated the global community and ushered in an unprecedented surge of innovation For many years the subtle hum of AI has been interconnected into the fabric of our society Devices such as Echo Alexa and Google Home once considered avant garde are now seamlessly integrated into our homes and vehicles becoming essential navigators in our daily journeys However this new phase of AI evolution is distinct Capable of enhanced ability these new generative AI systems could easily discern the intuitive needs of their end users With a mere command or a simple image generative AI systems can draft comprehensive reports write legal documents or produce intricate visual masterpieces Their proficiency can also be extended to routine and mundane tasks smoothly managing administrative duties writing correspondences and providing invaluable support in professional settings Although these foundation models require a vast amount of training data and billions of parameters to be effective the outcomes are equally remarkable Technology companies and investors recognising the potential embarked on an investment spree steering a new era for the development of specialised models such as Microsoft CoPilot Midjourney ChatGPT and so on As these technology companies continue to improve their language models each version seems to be more refined than its predecessor Foremost among these are the Large Language Models LLMs emblematic of this AI renaissance Now with voice activated capabilities generative AIs have become capable of much more in the relatively short span of their existence With the integration of voice activated features combined with their capabilities to speak like a human being their potential continues to grow exponentially They aren t labelled as chatbots anymore these AI systems signify a technological paradigm shift reshaping humanity s understanding of technology automation and creative expression However with such shift comes the imperative need for governance and control The unchecked expansion of AI

poses unmitigated challenges In reality these advanced AIs have the potential to be transformative and destructive parallelly Thus it is necessary to establish guidelines and oversight to ensure the ethical deployment of such systems which this book focuses on As society stands at this transformative crossroads parallels are being drawn to the imaginative world of fiction The concept of Jarvis AI from the fictitious world appears provocatively close to becoming a reality The epoch of generative AI has truly dawned promising a future where technological prowess and human aspiration unite **Scientific American** ,1898 **Billboard** ,1951-05-12 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends
