Encyclopedia of Social Theory Austin Harrington, Barbara L. Marshall, Hans-Peter Müller, 2006 The Encyclopedia of Social Theory contains over 500 entries varying from concise definitions of key terms and short biographies of key theorists to comprehensive surveys of leading concepts debates themes and schools The object of the Encyclopedia has been to give thorough coverage of the central topics in theoretical sociology as well as terms and concepts in the methodology and philosophy of social science Although 106 theorists are given entries the emphasis of the work is on the elucidation of ideas rather than intellectual biography The Encyclopedia covers the leading contemporary domains of debate on social theory and the classical legacies of social thinkers from the nineteenth and early twentieth centuries giving proper balance to both the European and North American traditions and to important new developments in the global self understanding of sociology Social theory has become one of the most vigorous specialisms of sociology in recent years This is in part due to the considerable overlaps of social theory with other disciplinary areas such as cultural and media studies anthropology and political theory and to the cross disciplinary nature of theoretical approaches such as feminism and psychoanalysis and new fields such as postcolonial studies The editors have therefore worked to produce in the Encyclopedia of Social Theory a first call reference for students and researchers across the social sciences and humanities with an interest in contemporary theory and the modern history of ideas The Encyclopedia has been authored by leading international specialists in the field under the direction of a well balanced editorial team It is comprehensively cross referenced and all

Chall, 1995 Essays on Wittgenstein and Austrian Philosophy ,2022-07-04 Essays on Wittgenstein and Austrian Philosophy is presented for the 60th birthday of professor Christoph Nyiri The essays presented here for the first time are focused on Austrian intellectual history and on Wittgenstein's philosophy the two main areas of Professor Nyiri's interests Typically the contributors are outstanding scholars of the field including among others David Bloor Lee Congdon Newton Garver Wilhelm L. Tetterfields Joachim Schulte Barry Smith The volume is of primary interest for Wittgenstein scholars and those studying the 19th and 20th century Austrian intellectual history As the volume is presented for Professor Nyiri the papers collected here reflect his interests in Wittgenstein and Austrian philosophy Beginning with an introductory chapter on Nyiri's achievements in this field of scholarship the volume is in four parts The first part contains essays on Austrian philosophy broadly understood more precisely on its socio historical context Barry Smith and Wolfgang Grassl on the relation between Marxism and Arnold Hauser's philosophy and sociology of art Lee Congdon and Neurath's connection to naturalistic epistemologies Thomas Uebel The second part presents Wittgenstein's philosophy in context Jaakko Hintikka's paper argues that Wittgenstein's probable dyslexia can be seen as an external influence on and a source of his philosophy David Bloor discusses Wittgenstein's philosophy in the context of Edmund Burke's conservatism which can be read as a background of Nyiri's influential interpretation of Wittgenstein as a conservative philosopher Newton Garver also touches on the problem of conservatism while discussing passages of *On Certainty* in the context of Kant Moore and T. S. Eliot Klaus Puhl's essay connects Wittgenstein's remarks on rule following to Freud's concept of retroactivity and argues that rules emerging from empirical regularities can be seen as retroactive constructions The papers in the third part of the volume offer close readings of Wittgenstein's works Rudolf L. the offers two readings of Wittgenstein's criticism of philosophy in the *Tractatus* can be read in two ways with different consequences among them is the appearance of philosophy inspired by art rather than the sciences Joachim Schulte offers an interpretation of Wittgenstein's use of natural history that can accommodate all of his remarks containing this concept Herbert Hrachovec discusses the relation of pictorial and linguistic representations in Wittgenstein's *Nachlass* arguing that there is no pronounced opposition between the two The forth part of the book

containing three papers in German continues the close inspection of Wittgenstein's later works Wilhelm L. terfelds reconstructs Wittgenstein's philosophy of time as pointing out memory being the very source of time Katalin Neumer inspects Wittgenstein's frequent references to photographs in the context of aspect seeing and compares them with other remarks on theatre painting and music She concludes that there are no philosophically important structural differences between them Peter Keicher's paper offers a comprehensive view on Wittgenstein's prefaces in the context of his various book projects The volume ends with a select bibliography of Professor Nyiri's works *International Social Science Review*, 1986 *Sociological Abstracts*, 1993 **Kritika**, 2005 *The Right in Chile After Pinochet* Daniel Adam Kaufman, 2001
