American Conservatism Paul Lyons, 2009 This book offers a rare opportunity to read about how a scholar's teaching informs his research in this case an examination of the nature of American conservatism It is based on an interdisciplinary senior seminar Lyons taught in Spring 2006 His teaching log including student comments from an electronic conferencing system gives a vivid sense of the daily frustrations and triumphs Lyons reflects on some of the most difficult issues in higher education today such as how to handle racism and political passions in the classroom as well as how a teacher presents his own political convictions Lyons begins with the premise that most universities have been negligent in helping undergraduates understand a movement that has shaped the political landscape for half a century In addition in a series of essays that frame the teaching log he makes the case that conservatives have too often failed to adhere to basic Burkean principles and that the best of conservatism has often appeared as a form of liberalism from thinkers such as Hannah Arendt Reinhold Niebuhr and George Kennan The essays also cover the history of conservatism conservative use of the city on a hill metaphor and an examination of how the promise of Camelot sophistication was subverted by a resurgence of right wing populism

Antiquity and Social Reform Dawn L. Hutchinson, 2010 Although religious innovation in America has historically been the norm rather than the exception mainstream Americans have often viewed new religious movements with suspicion and occasionally with outright alarm The question motivating many studies of new religious movements has been why would someone join these religions In *Antiquity and Social Reform* Dawn Hutchinson offers at least one answer to this often repeated query She argues that followers of new religious movements in the 1960s 1980s specifically the Unification Church Feminist Wicca and the Nation of Yahweh considered these religions to be legitimate because they offered members a personal religious experience a connection to an ancient tradition and agency in improving their world Utilizing an historical approach *Antiquity and Social Reform* considers the conversion narratives of adherents and primary literature of the formative years of these movements which demonstrates that the religious experiences of the adherents and a resonance with the goals of these religions
