Conserver Society A Workable Alternative:

The Conserver Society Kimon Valaskakis,1979 The Conserver Society : a Workable Alternative for the Future Kimon Valaskakis,1979 **Life in 2030** John B. Robinson,2007-10-01 Life in 2030 is a ground breaking practical and above all positive vision of life in twenty first century Canada As we move into the next century the development of sustainable and environmentally benign patterns of resource utilization and socioeconomic development is an essential priority In this book John Robinson and his co authors investigate the possibility and impacts of a sustainable future for Canada Based on research initiated by the Sustainable Society Project in 1988 Life in 2030 is unique in that it uses backcasting instead of forecasting to trace the path of Canada forty years into the future to the year 2030 Instead of predicting the most likely future based on current trends the authors set out a desirable future and discuss the changes that would need to occur between 1990 and 2030 to arrive at this future vision This vision derived from ethical political and ecological principles is not viewed as definitive for the authors hope to inspire others to conceive of and work towards their own visions of a sustainable future Life in 2030 makes a significant contribution to interdisciplinary studies on the environment and sustainability because it develops a scenario that allows for an evaluation of the changes required to achieve a sustainable society This book is required reading for anyone interested in a sustainable future environment It also provides an original and provocative look at life in Canada in the twenty first century **The Conserver Society** Karl E. Henion,Thomas C. Kinnear,American Marketing Association,1979 *Alternatives* ,1989 Perspectives on society and environment New Thinking for a New Millennium Richard A. Slaughter,2002-11 The study of futures is an area of increasing interest and one that is comprehensively examined in this new collection with contributions from key names in the field **Materials and Society** ,1981 **Reader's Guide to the Social Sciences** Jonathan Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense **Global Environmental Risk** Jeanne X. Kasperson,Roger E. Kasperson,2013-05-13 Despite international initiatives such as the Earth Summit in 1992 and ongoing efforts to implement the Kyoto Protocol human activities continue to register a destructive toll on the planetary environment At root research on global environmental risk seeks new pathways for reversing unsustainable trends curtailing ongoing destructive activities and creating a life sustaining planet This book takes stock of the distinctive challenges posed by global environmental risks the capacity of knowledge systems to identify and characterize such risks and the competence of human society to manage the unprecedented complexity Particular attention trains on engaging in ways conducive to enhancing social learning and adaptation the large uncertainties inherent in these risks Various chapters enlist different scales of analysis to explore the manifestation and

causes of global environmental risks in all the diversity of their regional expression Throughout the editors and contributors accord prominence to the vulnerability of people and places to environmental degradation Understanding vulnerability is a neglected key to assessing the nature of the risks and determining strategies for altering trajectories of threat Global risk futures the editors argue are not intractable and are still amenable to a risk analysis enterprise that is democratic in principle humanistic in concept and geared to the realities that pertain to the particular societies locales and regions that will ultimately bear the risk *The Futurist* ,1982 **Resurgence** ,1980 *Proceedings of the ... International Symposium on Technology and Society* ,1991 *The Well-tempered House* Robert Argue,1980 Describes the construction and design of low energy consuming shelters in cold climates and integrates information on conservation and passive solar heating Includes selections of papers from the Fairview Conference 1979 held in Fairview Alberta Future Survey Annual ,1980

Consumption & Marketing Russell W. Belk,Nikhilesh Dholakia,Alladi Venkatesh,1996 The six essays in this collection focus on exploring the macro dimensions of consumption and marketing It attempts to foster dialogue between marketing researchers and social sciences The essays are mainly by marketing scholars and the commentaries on the essays are by social scientists **Transformation of Old Industrial Regions as a Sociological Problem** Kazimiera Wódz,1994 A

Choice, a Voice, and a Piece of Property Richard Allen Chase,1983 **Lifestyles, Environment, and Development** ,1982

Aanwinsten van de Centrale Bibliotheek (Queteletfonds) Bibliothèque centrale (Fonds Quetelet),1995 **U.S. Mineral Issues** ,1981
