Constantine the Great and Christianity Christopher Bush Coleman, 1914 *Constantine the Great* Michael Grant, 1994 The Emperor Constantine was one of the great charismatic figures of the ancient world He was directly responsible for two momentous transformations that greatly affected our history and civilization the founding of Constantinople as the Roman capital and the conversion of the Roman Empire to Christianity With knowledge gained from modern research in all relevant fields including archaeology papyrology and art history Michael Grant traces the controversies that surround this intriguing ruler back to their very beginnings He draws a compelling portrait of Constantine assessing the emperor s achievements as a general in command of his armies and as a resourceful politician and reformer In art politics economics social developments and particularly in religion the life of Constantine acts as a bridge between past and present Michael Grant goes beyond the bias of literary sources and reveals the private man behind the public persona the superstitious beliefs underpinning Constantine s hallucinatory visions and dreams that heralded his conversion to Christianity his persecution of paganism in the name of Christianity that set precedents for centuries to come and the relationship between church and state that gave way to the totalitarianism of the Late Roman Empire Was he the last notable Roman emperor or the first medieval monarch Was the great convert a saint and hero or should we regard him as a murderer who killed his wife his eldest son and many of his friends to further his own ambitions These are just some of the issues raised in this revelatory biography BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Constantine the Great G. P. Baker, 2001-08-09 This sharp engaging biography details the life and achievements of Constantine the Great who unified the Roman Empire adopted Christianity as its official religion and transferred the capital of the Empire from Rome to Constantinople **Constantine the Great and Christianity** Christopher Bush Coleman, 2008-11 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1917 edition Excerpt 6 Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book c Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book d Departmental columns in the Sales Book and in the Purchase Book Controlling Accounts The addition of special

columns in books of original entry makes possible the keeping of Controlling Accounts The most common examples of such accounts are Accounts Receivable account and Accounts Payable account These summary accounts respectively displace individual customers and creditors accounts in the Ledger The customers accounts are then segregated in another book called the Sales Ledger or Customers Ledger while the creditors accounts are kept in the Purchase or Creditors Ledger The original Ledger now much reduced in size is called the General Ledger The Trial Balance now refers to the accounts in the General Ledger It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved A Schedule of Accounts Receivable is then prepared consisting of the balances found in the Sales Ledger and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance A similar Schedule of Accounts Payable made up of all the balances in the Purchase Ledger is prepared and it must agree with the balance of the Accounts Payable account of the General Ledger The Balance Sheet In the more elementary part of the text the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise In the present chapter he was shown how to prepare a similar statement the Balance Sheet For all practical

**Constantine, Christianity and Constantinople** Terry Julian, 2005-09-28 Since Jesus Christ only two people have affected the life or death of christianity Saint Paul with his missionary success and Constantine The Great with his divine revelation Constantine was the emperor who turned the Roman Empire from persecuting Christians to promoting them and this resulted in major and lasting consequences for Christianity He created an environment for Christianity to evolve from a fringe society to become the single most important influence on Western civilization In addition to being the greatest builder of Christian churches Constantine created Constantinople today s Istanbul a centre that kept Christianity and classical literature alive for a thousand years

*Was Constantine the Great a sincere Christian?* Leon Freytag, 2016-05-11 Essay from the year 2016 in the subject World History Early and Ancient History grade 1 3 language English abstract The question about the sincerity of Roman Emperor Constantine s faith matters for two reasons First during his reign at the beginning of the fourth century AD Christianity became a religio licita after having been only a superstitio illicita before It was Constantine who really paved the way for a Christian empire which has heavily influenced world history until now The sincerity of his faith might explain his success Second this is a question about motive If we can better understand the underlying motivations of Constantine any other speculations about his life and his actions become more plausible A Variety of sources are available to us each one having strengths and limitations Unfortunately there are hardly any texts delivered by Constantine himself which means that we can only speculate on the sincerity of his faith without ever being sure Coins issued by Constantine are a reliable primary source but being a very public item they might not tell us much on his private beliefs The same holds for public documents issued by Constantine like the Edict of Milan On the other side we have two detailed accounts on his life by two of his contemporaries Eusebius of Caesarea Life of Constantine and Lactantius On the deaths of the persecutors As both are

Christians we have to take into account the bias due to the incentive to portrait Constantine like a saint

**Constantine versus Christ** Alistair Kee, 2016-08-31 The subject of this book is politics and religion the relationship between Constantine and Christianity Something happened in the reign of the Emperor Constantine that transformed both politics and religion in Europe and anyone who seeks to understand modern Christianity must analyze this transformation and its consequences The reign of Constantine is remembered as the victory of Christianity over the Roman Empire the subtitle of the book indicates a more ominous assessment the triumph of ideology Through a careful analysis of the sources Dr Kee argues that Constantine was not in fact a Christian and that the sign in which he conquered was not the cross of Christ but a political symbol of his own making However that is only the beginning of the story For Constantine religion was part of an imperial strategy and the second part of this book shows just what that strategy was Here is the development which marks a transition to a further stage the way in which by using Christianity for his own ends Constantine transformed it into something completely different Constantine Dr Kee argues along with his biographer and panegyrist Eusebius succeeded in replacing the norms of Christ and the early church with the norms of imperial ideology Why it has been previously thought that Constantine was a Christian is not because what he believed was Christian but because what he believed came to be called Christian And that represents the triumph of ideology

**Constantine and the Council of Nicaea** David E. Henderson, Frank Kirkpatrick, 2016-10-25 Constantine and the Council of Nicaea plunges students into the theological debates confronting early Christian church leaders Emperor Constantine has sanctioned Christianity as a legitimate religion within the Roman Empire but discovers that Christians do not agree on fundamental aspects of their beliefs Some have resorted to violence battling over which group has the correct theology Constantine has invited all of the bishops of the church to attend a great church council to be held in Nicaea hoping to settle these problems and others The first order of business is to agree on a core theology of the church to which Christians must subscribe if they are to hold to the true faith Some will attempt to use the creed to exclude their enemies from the church If they succeed Constantine may fail to achieve his goal of unity in both empire and church The outcome of this conference will shape the future of Christianity for millennia Free supplementary materials for this textbook are available at the Reacting to the Past website Visit <https://reacting.barnard.edu/instructor> resources click on the RTTP Game Library link and create a free account to download what is available

*Constantine the Great and Christianity* Christopher Bush Coleman, 1968-03-02 Looks at the history of Constantine and Christianity from three main focal points on the historical facts of Constantine's attitude toward Christianity and the Church on the process by which Constantine's actual position in religious matters was distorted and the way in which the distorted position influenced subsequent generations and on the Donation of Constantine in which power over Rome was
