Constitution Reconsidered:

The Constitution Reconsidered American Historical Association, 1938 Prints several papers read aloud at the meeting of the American Historical Association in December 1937 on the sesquicentennial anniversary of the United States Constitution Provides the background of the thinking of the framers of the Constitution an analysis of some phases of the Constitution and a study of its influence **The Constitution Reconsidered** Conyers Read, 1938 Creating the Constitution Thornton

Anderson, 1993-09-15 *Creating the Constitution* presents a different interpretation of the Convention and the First Congress derived largely from a close reading of Farrand's Records and the Annals of Congress Among its special features are a critical perspective on the Framers an examination of Court Whig influence on the Federalists the identification of a third group the state Federalists between the nationalists and states righters and a view of the First Congress as distorting the aims of the Convention China's Quest for a Modern Constitutional Polity Michael To, China's fast rise in recent decades

has surprised and bewildered many As the world's second largest economy and with one fifth of the world's population China's future has tremendous implications for the rest of the world The world needs a peaceful and responsible China This requires China to develop a political system with a constitutional reform matching the aspirations of her people and her role in the world This volume documents China's social political and cultural transformations in the past one hundred and fifty years as they are experienced in China by the Chinese The insights derived from this volume are the result of a deep bi cultural understanding of both East and West By sharing these insights this book hopes to shed light on China's future possibilities **Revisions and Dissents** Paul Gottfried, 2017-04-15 Paul Gottfried's critical engagement with political correctness is well known The essays in *Revisions and Dissents* focus on a range of topics in European intellectual and political history social theory and the history of modern political movements With subjects as varied as Robert Nisbet Whig history the European Union election of 2014 and Donald Trump the essays are tied together by their strenuous confrontation with historians and journalists whose claims about the past no longer receive critical scrutiny According to Gottfried successful writers on historical topics take advantage of political orthodoxy and or widespread ignorance to present questionable platitudes as self evident historical judgments New research ceases to be of importance in determining accepted interpretations What remains decisive Gottfried maintains is whether the favored view fits the political and emotional needs of what he calls verbalizing elites In this highly politicized age Gottfried argues it is necessary to re examine these prevalent interpretations of the past He does so in this engaging volume which will appeal to general readers interested in political and intellectual history **A Manual for the Constitutional Convention, 1917** Massachusetts.
