Constitutional Law Jesse H. Choper, Richard H. Fallon (Jr.), Yale Kamisar, Steven H. Shiffrin, Michael C. Dorf, Frederick Schauer, 2015 This long popular constitutional law casebook has added two new co authors for its newest 12th new edition Michael Dorf and Frederick Schauer who have brought deep background and rich insight in helping to bring the book thoroughly up to date In preparing the new edition the authors have retained the basic format of prior editions but have added new cases and re edited old ones to ensure coverage of important topics in manageable numbers of pages The Notes and Questions which have long been a hallmark of the book continue to present a wide range of perspectives for students to consider rather than reflecting a single point of view that users of the book must either adopt or teach against Professors will especially like the illuminating and provocative extracts from the literature that accompany important new cases involving the Affordable Care Act same sex marriage affirmative action and campaign finance and freedom of speech *Choper, Dorf, Fallon, and Schauer's Constitutional Law: Cases, Comments, and Questions, 13th - CasebookPlus* Jesse H. Fallon, Yale Kamisar, 2014-08-02 Cases and Materials on Constitutional Law Daniel A. Farber, William N. Eskridge (Jr.), Philip P. Frickey, Jane S. Schacter, 2013 The new edition of Farber Eskridge Frickey and Schacter's Cases and Materials on Constitutional Law exploits the two most exciting developments in Constitutional Law teaching in the last thirty years the judiciary's dramatic engagement with social movements and key political debates and academic and judicial

deployment of original meaning as a central methodology Thus the new edition presents a most systematic introduction of original meaning methodology for law students starting with the evolution of originalism in response to the academic debates over *Brown v Board of Education* and continuing with in depth examination of what original meaning teaches us about the Fourteenth Amendment as well as the First and Second Amendments the Commerce Clause and other authorizations for congressional regulation the federalist structure of the Constitution and the separation of powers The new edition provides in depth treatment of the most exciting issues in constitutional law today including the validity of affirmative action exemplified by state discriminations based upon sexuality or gender the imperial First Amendment threatening to impose a new *Lochner* type era of judicial review of economic legislation the increasingly prominent federalism limitations on congressional and state authority powerfully illustrated by the *ObamaCare Case* and the *Arizona Immigration Case* and the limitations on the imperial presidency posed by the *War on Terror Cases* **Constitutional Law** William B. Introduction to American Constitutional Law William F. Funk,2014 Unlike most constitutional law books this book does not assume that the students have any particular knowledge of American history government or law so it begins with a rich introductory chapter to provide students with a necessary foundation for the rest of the material Thereafter it supplements the familiar cases with historical context and pictures and biographies of current and famous justices adjacent to their opinions It makes the traditional canon accessible and enjoyable to the current generation Easily covered over two semesters the book manages through careful case selection to avoid drastic editing of all but the longest cases Cases and Materials on Constitutional Law DANIEL A..
