Democracy in East Asia Larry Diamond, Marc F. Plattner, Yun-han Chu, 2013-02-15 Democratization scholars believe that the next regional wave of transitions to democracy may unfold in East and Southeast Asia In their introduction to the 1998 edition of *Democracy in East Asia* Larry Diamond and Marc F Plattner predicted that East Asia with its remarkable diversity of political regimes economies and religions would likely be the most critical arena in the global struggle for democracy a prediction that has proven prescient Although the recent political upheavals in the Middle East have understandably grabbed the world's attention there is reason to doubt whether the overthrow of some authoritarian regimes there will lead to the establishment of stable democracies any time soon On the other hand East Asia the world's most populous and economically dynamic region already boasts several consolidated democracies and provides a fascinating laboratory for studies of both authoritarian resilience and the prospects for democratization This updated volume which features contributions by distinguished scholars in East Asian studies will be welcomed by instructors and students in the field particularly as U S foreign policy is in the process of undertaking a pivot toward Asia *Democracy in East Asia* offers a comprehensive treatment of the political landscape in both Northeast and Southeast Asia including discussions of China

Constitutional Courts in Asia Albert H. Y. Chen,Andrew Harding,2018-09-20 The founding of a constitutional court is
often an indication of a chosen path of constitutionalism and democracy It is no coincidence that most of the constitutional
courts in East and Southeast Asia were established at the same time as the transition of the countries concerned from
authoritarianism to liberal constitutional democracy This book is the first to provide systematic narratives and analysis of
Asian experiences of constitutional courts and related developments and to introduce comparative historical and theoretical
perspectives on these experiences as well as debates on the relevant issues in countries that do not as yet have constitutional
courts This volume makes a significant contribution to the systematic and comparative study of constitutional courts
