Constitutions in a Nonconstitutional World Nathan J. Brown, 2012-02-01 The collapse of authoritarian regimes and the global resurgence of liberal democracy has led to a renewed interest in constitutions and constitutionalism among scholars and political activists alike This book uses the Arab experience to explain the appeal of constitutional documents to authoritarian regimes and assesses the degree to which such constitutions can be used in the effort to make the regimes more accountable

From Words to Worlds Beau Breslin, 2009-01-26 In the 225 years since the United States Constitution was first drafted no single book has addressed the key questions of what constitutions are designed to do how they are structured and why they matter In *From Words to Worlds* constitutional scholar Beau Breslin corrects this glaring oversight singling out the essential functions that a modern written constitution must incorporate in order to serve as a nation's fundamental law Breslin lays out and explains the basic functions of a modern constitution including creating a new citizenry structuring the institutions of government regulating conflict between layers and branches of government and limiting the power of the sovereign He also discusses the theoretical concepts behind the fundamentals of written constitutions and examines in depth some of the most important constitutional charters from around the world In assaying how states put structural ideas into practice Breslin asks probing questions about why and if constitutions matter Solidly argued and engagingly written this comparative study in constitutional thought demonstrates clearly the key components that a state's foundational document must address Breslin draws a critically important distinction between constitutional texts and constitutional practice

Recasting Islamic Law Rachel M. Scott, 2021-03-15 By examining the intersection of Islamic law state law religion and culture in the Egyptian nation building process *Recasting Islamic Law* highlights how the sharia when attached to constitutional commitments is reshaped into modern Islamic state law Rachel M Scott analyzes the complex effects of constitutional commitments to the sharia in the wake of the Egyptian Revolution of 2011 She argues that the sharia is not dismantled by the modern state when it is applied as modern Islamic state law but rather recast in its service In showing the particular forms that the sharia takes when it is applied as modern Islamic state law Scott pushes back against assumptions that introductions of the sharia into modern state law result in either the revival of medieval Islam or in its complete transformation Scott engages with premodern law and with the Ottoman legal legacy on topics concerning Egypt's Coptic community women's rights personal status law and the relationship between religious scholars and the Supreme Constitutional Court *Recasting Islamic Law* considers modern Islamic state law's discontinuities and its continuities with premodern sharia Thanks to generous funding from Virginia Tech and its participation in TOME Toward an Open Monograph Ecosystem the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu
