Construction And Culture Donald E. Mulligan, Kraig Knutson, 2004-08-31 *Outlines and Highlights for Construction and Culture* Cram101 Textbook Reviews, 2009-12 Never HIGHLIGHT a Book Again Virtually all of the testable terms concepts persons places and events from the textbook are included Cram101 Just the FACTS101 studyguides give all of the outlines highlights notes and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanys 9781588743473 **The Culture of Building** Howard Davis, 2006-05-12 The Culture of Building describes how the built world including the vast number of buildings that are the settings for peoples everyday lives is the product of building cultures complex systems of people relationships building types techniques and habits in which design and building are anchored These cultures include builders bankers architects developers clients contractors craftspeople building inspectors planners and many others The product of these cultures which operate building after building is the built world of cities and settlements In this book Howard Davis uses historical contemporary and cross cultural examples to describe the nature and influence of these cultures He shows how building cultures reflect the general cultures in which they exist how they have changed over history how they affect the form of buildings and cities and how present building cultures which are responsible for the contemporary everyday environments may be improved Following the development of the idea of building cultures using several historical examples the book lays out a framework that puts such topics as craft and professionalism the vernacular and nonvernacular and design and construction in common frameworks Although the book ranges widely over different cultures and historical periods it emphasizes the transformations that took place in architecture and building practice from the late eighteenth century to the present Finally the book uses a series of contemporary examples that demonstrate the building culture as a living concept These examples which include built work as well as innovative processes that go beyond the work of architects alone are described as the seeds that can help the emergence of a better build world This beautiful book features over 260 color and black and white illustrations most from the authors extensive collection of slides and includes photographs prints and drawings from historical archives and contemporary architectural offices **Construction and Culture** Donald E. Mulligan, Kraig Knutson, 2000 *People and Culture in Construction* Andrew Dainty, Stuart Green, Barbara Bagilhole, 2007-05-07 This important work sets out cutting edge social science and business oriented thinking derived from a major EPSRC research project Its interdisciplinary approach draws together industry and research and is international in its relevance *Building Culture: procurement of UK arts construction* Walter Menteth, Bridget Sawyers, 2021-04-30 building culture describes how cultural buildings are conceived and procured through a review of data case studies and interrogation of the processes an invaluable resource for anyone commissioning arts and cultural buildings in the UK building culture is a uniquely comprehensive investigation that offers research guidance analysis of Covid impacts and recommendations for communities arts professionals commissioners clients

architects project teams and policy makers for future best practice building culture contains Contributions by eminent architects competition programmers and a client Unique data analysis of the procurement processes of the sector Arts funding guidance and procurement analysis Resources and references building culture looks at the procurement data for 421 arts and heritage capital projects across the UK between 2013 and 2018 to establish what procurement route was taken what guidance was provided and by whom who were the consultants appointed some examples of best practice and some less good and lessons learnt Based on this evidence and previous research building culture then makes recommendations for the key funding bodies and those advising or undertaking arts and heritage capital procurement and projects In order to understand the landscape of arts and cultural buildings and their procurement it has also been required to understand the funding ecology and specifically that of the national arts funding bodies This is seen in the light of the current context as the sector responds to Covid Brexit austerity and the future challenges of a Climate Emergency Building Culture is a comprehensive survey and commentary of the processes and power of cultural development and its reach across the United Kingdom The authors then present some of the urgent and important challenges and issues of our time expertly framed through a diverse set of exemplar projects as case studies situated within the complex world of planning policy and funding regimes The result will prove an essential resource to students practitioners and others looking to understand the world of cultural development with all its many challenges and opportunities The recommendations the authors present to us here are central to a dialogue which is much needed about the values and principles needed for our society in the future Donald Hyslop Chair of Creative and Cultural Skills UK This in depth study of how cultural spaces are conceived and procured is hugely valuable to clients and design teams who often work in seeming isolation creating and adapting projects It is especially valuable as returning from the pandemic we can appreciate the strategic and symbolic significance of cultural spaces and their role in coalescing places and sustaining relationships between people The impressive depth and span of evidence gathered demonstrates how we could invest more wisely with a greater common understanding of the processes that prepare the ground for inspiring robust and sustainable cultural buildings The case studies demonstrate how this is done well Juliet Bidgood Architect and RIBA Client Adviser

Understanding Organisational Culture in the Construction Industry Vaughan Coffey, 2010-01-28

Since the early 1980s researchers and practitioners in the organisational and management fields have presumed a link between organisational or corporate culture and organisational performance Whilst many believe this exists other authors have been critical of the validity of such studies Part of this doubt stems from a reliance on measures of organisational performance that are based purely on financial measures of business growth Using the construction industry as the subject of his research Vaughan Coffey traces the development of the literature on organisational culture and business effectiveness and investigates the culture performance link using a new and highly objective measure of company performance and an evaluation of organisational culture which is largely behaviourally based Providing a theoretical contribution to the field this

work shows that various cultural traits appear to be closely linked to objectively measured organisational effectiveness This book will be valuable to professionals and researchers in the fields of management and public policy It indicates directions for construction companies to develop and change and in doing so strengthen their chances of remaining strong when opportunities for work might deplete and only the most successful companies will be able to survive Thesaurus of ERIC Descriptors, 1995 4th 7th eds contain a special chapter on The role and function of the thesaurus in education by Frederick Goodman *People and Culture in Construction*, 2006 *Building for a Changing Culture and Climate* Ulrich Pfammatter, 2014 The author of this book aims to encourage an awareness of sustainability as it is implemented across all areas of planning and design and the ability to think and act on this knowledge This book will explore in genuine depth the sustainable strategies that could be applied along with the practical work of key figures in the built environment setting these against historical experiences and traditional cultures It also aims to revive the discourse around these subjects Achieving this will require the involvement of architects and structural energy and environmental engineers construction businesses and specialists research institutes and universities The five chapters and 333 show cased projects reflect important stages in the architectural and engineering based design process stages which need to be addressed when dealing with sustainable strategies in the built environment **Cultural Influences on Architecture** Koç, Gülşah, Claes, Marie-Therese, Christiansen, Bryan, 2016-10-19 A society's culture is a contributing factor to the structure and design of its architecture As contemporary globalism brings about the evolution of the world architectural style evolves along with it which can be observed on an international scale Cultural Influences on Architecture is a pivotal reference source for the latest research on the impact of culture on architecture through the aspects of planning and production and highlights the importance of communicative dimension in design Featuring exhaustive coverage on a variety of relevant perspectives and topics such as the evolution of construction systems benefits of nature based architecture and fundamentals of social capital this publication is ideally designed for researchers scholars and students seeking current research on the connection between culture and architecture on a global level Building Community in Buildings Ken Baker, Jana M. Kemp, 2006-11-30 Building Community in Buildings takes us on a fascinating journey through workplaces large and small old and new traditional and contemporary to explore the dynamic relationships between people and the structures in which they work Noting that a child born today will spend 90 percent of his or her life inside Jana Kemp and Ken Baker integrate insights from management and building design to reveal new understandings about workplace productivity and performance Showcasing dozens of examples from office buildings to libraries to hospitals the authors highlight innovative practices that utilize space to promote creativity and collaboration improve morale and motivation and ensure employee health and safety Featuring over a dozen photographs practical recommendations and the tools to conduct a workplace design survey in your own organization Building Community in Buildings ultimately demonstrates that by investing in spaces that support people needs

companies will strengthen bottom line results Building Community in Buildings takes us on a fascinating journey through workplaces large and small old and new traditional and contemporary to explore the dynamic relationships between people and the structures in which they work Consider that in the 1950s average North Americans spent approximately 50 percent of their time in buildings compared to a child born today who will spend 90 percent of his or her life inside Clearly and increasingly our social and cultural relationships are deeply influenced by the physical spaces in which they are created Jana Kemp and Ken Baker integrate insights from management and building design to reveal new understandings about workplace productivity and performance Showcasing dozens of examples from the redesign of the Hood River Library in Oregon with input from front line employees to the creation of open naturally lit spaces in Lockheed Building 157 increasing employee productivity by 15% the authors highlight innovative practices that utilize space to promote creativity and collaboration improve morale and motivation and ensure employee health and safety They also explore the pros and cons of virtual workplaces in which people are connected electronically but not physically and trace the impact and influences of such trends as the green building movement Featuring over a dozen photographs practical recommendations and the tools to conduct a workplace design survey in your own organization Building Community in Buildings ultimately demonstrates that by investing in spaces that support people needs companies will strengthen bottom line results
